1. **Brief description of Event (50-100 words):** The event was the European conference for behavioural biology. It is an annual conference focusing on different topics relating to behavioural biology. It is attended by leading scientists in the field and was composed of numerous symposia focusing on different topics. The symposia were also complimented by plenary talks and two poster sessions.

2. **What were the benefits of attending and what did you gain from the experience in terms of transferable skills and knowledge.** The experience was excellent as it allowed me to learn about the current, foremost topics in the field of behavioural biology. It also allowed me to network with leading academics and learn about potentially available positions that I could apply for.

3. **What actions will you be taking as a result of attending or by making new networking contacts.**

   I will be applying to different positions and communication with various peers that I have had the pleasure of meeting at the conference.

4. **Can you share any additional resources produced in connection with the event (e.g. feedback from participants, training resources, website links, and additional materials.**

   Website of the organising group: [http://cogbio.univie.ac.at/](http://cogbio.univie.ac.at/)

5. **Tips/experience learned from the event**

   Networking is easy, you just have to jump into it (don’t be shy!)

6. **Any additional comments or information regarding the event**

   Vienna is an amazing city and the format of the conference (parallel symposia) worked really well.
