

# The Academic Skills Project: Training for Psychology and Neuroscience

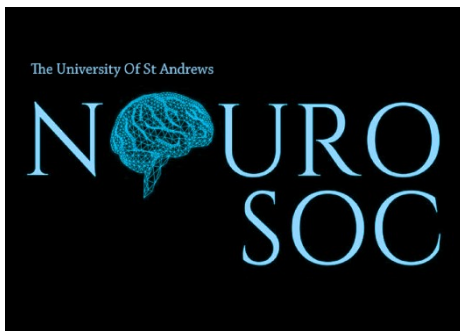

To help students on their way to academic success we regularly run workshops to help with some of common hurdles.

## For 1<sup>st</sup> Years look out for:

Study Skills for Psychology  
How to write clearly for sub-honours  
Resilience  
Research Design

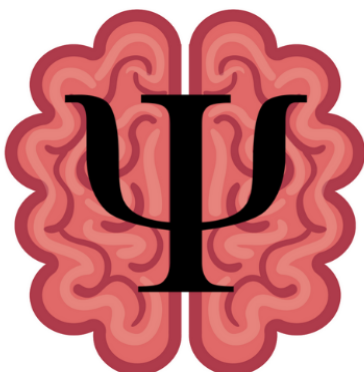

## NEUROSCIENCE SOCIETY

The Neuroscience society (NeuroSoc) is a group that strives to bring people together who share a passion for Neuroscience, regardless or not if they study it formally. The society plans to host numerous and academic events to harbour a sense of a Neuro-community. These events would include, guest speakers, career planning talks, internship advice presentations, social outings, alumni events and even a neuroscience-based computer science course.

## PSYCHOLOGY & NEUROSCIENCE SOCIETY

We are an academic and social society aiming to bring together students who share a passion for Psychology & Neuroscience. We encourage students to expand their knowledge and interest in different branches of these disciplines, whilst making friends and getting to know the academic and support staff. We are very friendly and encourage everyone to come and learn more about what we do, participate in our events or join our committee! If you enjoy funny quizzes, pub socials filled with nachos, monthly lunches with lecturers, career days and other exciting events such as a trip to Edinburgh Zoo
