1. Brief description of Event (50-100 words):

After a brief meet and greet of the participants, the workshop started with demonstrating how documentaries are made, showing useful do’s and don’ts and addressing questions from the participants. Throughout the two days, the sessions allowed us to critically examine the work previous films, pointing out different filming and editing styles. Evening assignments and hand-outs were based on how to film and edit.

2. What were the benefits of attending and what did you gain from the experience in terms of transferable skills and knowledge.

The workshop assisted in organising my fieldwork film material into useful clips that can be use during teaching and demonstrating. I intend to embark on a career in academia and using films as a form of teaching methods is very useful and a current trend in Anthropology, I will also be able to assist students who wishes to produce their own films.

3. What actions will you be taking as a result of attending or by making new networking contacts.

Coming together to share and debate ideas on how to document ethnographic data with a diverse group of people was a good form of networking that I can most certainly tap into if need be in the future. A follow up workshop was organised to look at ways of collaborative projects among the participants.

4. Can you share any additional resources produced in connection with the event (e.g. feedback from participants, training resources, website links, and additional materials.

5. Tips/experience learned from the event
