1. Brief description of Event (50-100 words): This workshop was designed to bring together educators in the field of social psychology to share best practice in teaching and learning. It was co-hosted by the University of Manchester and University of Salford, and took place in Media City, Manchester. In addition to learning new teaching techniques, the event bolstered my network of social psychologists.

2. What were the benefits of attending and what did you gain from the experience in terms of transferable skills and knowledge. The two main benefits were expanding my professional network and gaining additional teaching skills. I came away from the event with multiple new teaching ideas including novel forms of formative and formal assessment. Moreover, I gained exposure to various online resources and teaching aids which I had not heard of previously.

3. What actions will you be taking as a result of attending or by making new networking contacts. I will integrate the new techniques and resources into my own teaching. I will also keep in touch with many of the colleagues who I met there to continue sharing teaching experiences and ideas.

4. Can you share any additional resources produced in connection with the event (e.g. feedback from participants, training resources, website links, and additional materials).

Kahoot online quizzes - https://kahoot.com/

Padlet online noticeboard for real-time sharing of responses - https://en-gb.padlet.com/

5. Tips/experience learned from the event How to use the online resources noted above to enhance the learning experience in large cohorts, ideas for creative assessment (e.g. production of podcasts, newspaper articles, advertising campaigns etc.).

6. Any additional comments or information regarding the event

It was a well-run event with a relatively small number of engaged attendees. This made for a collegiate and productive atmosphere.
