1. Brief description of Event *(50-100 words)*: An event organised by Education Malaysia, UK &Eire (equivalent to British Council abroad), National Professors Council and the Public Service Department of Malaysia. The main objective of the event is to connect Malaysian postgraduate students at all Scottish Universities and to enable them to share and showcase their ongoing research and knowledge with a greater audience. Besides, the event also aimed at opening-up opportunities for future research and technical collaboration among Malaysian researchers in the future. The programme of the event includes a 3MT talk session, academic poster presentation and 4 parallel skills training sessions.

2. What were the benefits of attending and what did you gain from the experience in terms of transferable skills and knowledge.
The thesis writing workshop session which I attended, has been very useful in reminding me on the basic and fundamental aspect in putting forth my argument, which is the vital element in my ongoing thesis write-up

3. What actions will you be taking as a result of attending or by making new networking contacts.
I have initiated some basic discussion with like-minded researchers, on the possibility of setting up a “youth chapter” of civil service + academia think tank back in Malaysia, to provide public policy advice to the government. Details of the proposal will be deliberated again in the future meetings.

4. Can you share any additional resources produced in connection with the event (e.g. feedback from participants, training resources, website links, and additional materials).

5. Tips/experience learned from the event
This event has kept me motivated in accomplishing my writing. Furthermore, the 3MT and poster presentation sessions also allowed me to gain valuable feedbacks on my ongoing research.

6. Any additional comments or information regarding the event
