The Portuguese CSEAR Conference aims to foster a supportive and inclusive community of emerging and established scholars investigating research on the social and environmental aspects of accounting theory and practice. The annual CSEAR conference provides an international forum in which to showcase this work and to foster much needed interdisciplinary research in accounting.

The Higher Institute for Accountancy and Administration of Aveiro University looks forward to welcoming you to the 9th GECAMB Conference on Environmental Management and Accounting to be held at the University of Aveiro, **on 5th and 6th of November 2020**, with a gala dinner on 5th of November 2020.

Despite greater opportunities provided by technology and big data, the last decade has seen a loss of faith in business information. In fact, the need to ensure the organization sustainability, as well as the planet sustainability makes transparency and accountability issues crucial for environmental management and accounting.

In this context, the theme of the conference is "*Modernization and Accountability in Social and Environmental Management and Accounting*".

The Conference will provide a space for academic discussion of social and environmental accounting issues by giving participants the opportunity to share emerging and advanced topics that seek to explore contemporary accounting practices and concepts including but not limited to measurement, accountability, transparency and governance, ethics, assurance, extended external reporting, modern slavery and cybersecurity.

The Plenary Speakers include: Professor Massimo Contrafatto, University of Bergamo, Italy; Professor Enrique Bonson, University of Huelva, Spain; Professor Teresa Eugénio, Polytechnic Institute of Leiria, Portugal.

Dates to remember:

June 7, 2020 – Submission deadline for Full Papers or Extended Abstract (about 2000 words)
July 20, 2020 – Response to authors
September 30, 2020 – Registration deadline for authors
