- "Head of School" means the "Head of School or director of research institute or such other member of school or institute to whom the responsibility has been delegated"

II. Admission

1. Applicants for admission to postgraduate research study must make written application to the Postgraduate Admissions Office for consideration by the relevant School stating:

A. the nature of the academic or equivalent qualifications which they already possess;
B. the nature of the research they wish to pursue;
C. the names of at least two individuals who will be prepared to comment on their suitability as research students.

2. On receipt of the application the Head of School must be satisfied that:

A. the applicant is suitably qualified;
B. the research can be carried out effectively with the facilities available in the University
or in exceptional circumstances in any institution approved by the Dean of Faculty;

C. a professor, reader or lecturer in the University, or in exceptional circumstances some other properly qualified person, is prepared to supervise the work OR that adequate and appropriate supervision can be provided.

D. an application for a research degree is considered by more than one member of the School’s staff, at least one of whom should be research active, and with experience of the subject area.

The Head of School may recommend admission of applicants, who satisfy conditions A.-C. The Provost of St Leonard’s College has overall responsibility to monitor the management of postgraduate study.

3. Admitted applicants will normally be full-time students although those in full-time employment may not be so registered except with the written permission of their employer. Members of staff of the University may be permitted to register full-time if they can satisfy the Dean of Faculty that:

A. where they are funded from external sources, these bodies have given their permission;

B. the work on which they are engaged as full-time employees of the University is of sufficient scope and originality as to be appropriate for study as part of a higher degree;

C. the level and character of supervision offered to the member of staff is in no way incompatible with that normally associated with study for a higher degree;

D. that, to qualify for staff rates of fees, they satisfy the requirements that their contract must begin before or simultaneously with, the start of the degree course. Proof of staff status will be required prior to matriculating each year.

Part-time students are only eligible if their contracts of employment reach the minimum 18.125 hours per week or 0.5fte and are on either a teaching contract of 10 months or more, or a non-teaching contract of 12 months or more.

Employees of the University who claim the concessionary staff rate may not simultaneously hold University scholarships or UK Research Council Scholarships for fees or living costs, and must have the permission of the head of their employing unit, and the Head of the School in which they will undertake the study, to apply for the concessionary fee.

Eligibility will be assessed by the University Fees Officer.

Where full-time registration by a member of staff is approved the appropriate full-time fee will be payable. Notwithstanding, members of staff in either full-time or part-time employment may choose to study part-time. Other applicants, who are not members of staff, may study part-time only if they can satisfy the Senatus Academicus that inadequate time is available for full-time study.

4. Overseas students whose first language is not English must provide evidence of competence in written and spoken English as well as meeting the other entrance requirements. A satisfactory result in a recognised test of English language competence, e.g. I.E.L.T.S. or T.O.E.F.L. is acceptable. This test should be taken in the student’s home country. If a student is admitted who does not have satisfactory scores, she/he is required to attend, and to attain a satisfactory standard in, a course in St Andrews in language, study skills and cultural orientation before the session begins.

5. Every research student shall be required to matriculate and pay the appropriate fee. All fees are subject to annual revision and the revised fees will apply to all students.

This training is initially drawn up in a “schedule of research skills needs” at first matriculation and should include training in research methods and appropriate generic and transferable skills.

4. All research students will undergo a review conducted by the Head of School to determine whether progress is satisfactory and to determine the course of subsequent registration. This review will normally be conducted after six months (one year in the case of part-time students) and no later than twelve months after the initial date of matriculation as a research student. The Head of School will report to the appropriate Dean the result of the review and will recommend registration for the degree of Ph.D., or D.Lang., or M.D., or D.Eng., or M.Phil., or M.Litt., or M.Res., or M.Sc., or for the Postgraduate Diploma, as appropriate. Further progress reviews will be made on an annual basis as appropriate. Such reviews will examine progress made with the schedule of research training needs.

5. If serious problems emerge regarding a student’s progress at times other than the annual review the matter must be reported to the Head of School. After discussions with both supervisors and if the Head of School is satisfied that a problem exists the student should be warned in writing with a copy to the relevant Dean of Faculty. If problems persist the Head of School may recommend termination of studies to the Pro Dean and the matter will be decided by the Dean of Faculty who alone has the right to terminate a student’s studies.

IV **Duration and Place of Study**

1. Every candidate for the Degree of M.D., except under 2 below, shall pursue a course of special study or research in the University of St Andrews during a period of two years or its equivalent for part-time students.

2. The Senatus Academicus shall have the power to permit candidates on the recommendation of the Dean to pursue elsewhere their special study and research during the whole or part of the period, provided that the Senatus is satisfied that the necessary facilities exist for the pursuit of
the special study or research and that it is being done under adequate supervision.

3. Work done during any academic year may be reckoned as having been pursued over twelve months for a full-time student and over six months for a part-time student, unless otherwise agreed by the Dean of Faculty on the recommendation of the supervisor.

4. Work done during a summer vacation may be reckoned as having been carried out during three months (six weeks for part-time students) provided that the supervisor certifies it as being equivalent to three months of full-time study (or six weeks of full-time study for part-time students).

5. The thesis shall be normally presented after 2 years and after no more than 4 years of study as a matriculated student, or the equivalent for part-time students. The thesis will not be accepted less than 2 years after matriculation.

V Nature of Study

1. The degree of M.D is granted only for original research or higher study, the result of which is presented in a specially composed thesis. The original research or higher study must be carried out on a topic approved by the Head of School who shall appoint a supervisor. The thesis or portfolio shall constitute a significant and original contribution to knowledge or understanding consistent with what may reasonably be expected of a diligent student after two years of full-time study. It should be clearly written, well argued and should indicate a satisfactory knowledge of the field of study. It should contain material worthy of publication in some form.

2. All research students and supervisors are required to conduct their research and supervision in accordance with the requirements of the University’s Policies for Supervisors and Students in Taught and Research Postgraduate Programmes.

3. The work of all M.D. students will be reviewed annually prior to the submission of the thesis and the results reported to the Dean of Faculty. The first annual review, which will be conducted by the Head of School, and which will normally occur at the end of the first year of study after registration as a general research student, will determine continuance of registration as a M.D. student. An important part of this review is to produce an agreed timetable for submission of the thesis.

VI Methods for Presentation

1. Candidates for the degree of M.D. will be expected to submit a thesis embodying the results of his or her special study or research.

VII Thesis

1. The thesis shall be written in English and should take the form of a specially composed monograph. In exceptional circumstances the Dean may give permission for another language to be used.

2. The normal maximum length of the thesis will be 50,000 words excluding bibliography.

3. Three complete copies of the thesis shall be submitted in typescript and in secure but temporary binding. There shall be an adequate margin on each page. After the examination has been completed, two copies shall be bound in an approved style at the candidate’s expense and shall be deposited in the University Library. The third copy of the thesis shall be returned to the candidate.

4. In exceptional circumstances the Dean may give permission for the thesis to be presented in a different medium.

5. An abstract (not exceeding 300 words in length) of the thesis shall be submitted for the approval of the examiners. In the case of a thesis written in a foreign language there shall be a summary in English of between 1,000 and 3,000 words, in addition to an abstract in English. The abstract (and where appropriate, the summary) shall be bound in with the thesis.

6. The thesis shall be prefaced by:-
A. a declaration that the thesis has been composed by the candidate, that the work of which it is a record has been done by that candidate, and that it has not been accepted in any previous application for any degree.

B. a statement of the date of the candidate’s admission as a research student:

C. a statement by the supervisor that the Regulations have been fulfilled; and

D. a statement that either access to the thesis in the University Library shall be unrestricted or that with the approval of the Dean access shall be restricted under stated conditions for a period up to a maximum of five years.

VIII Examination of Candidates Presenting by Thesis

1. The Senatus Academicus shall appoint a committee to examine the thesis and report on it to the Senatus Academicus. The committee shall normally consist of two examiners, one of whom shall be an external examiner. An internal examiner shall be appointed, who (for administrative purposes) shall act as convener of the committee.

2. In the case of an employee of the University, the examining committee shall consist of an internal examiner who shall act as convener and two external examiners.

3. The examiners appointed by the Senatus Academicus shall submit independent written reports without consultation on the thesis. These independent reports must be completed and a copy returned to the Registry Academic Support Office before any oral examination of the candidate takes place. In addition the supervisor of the thesis shall submit a written report to the examining committee detailing any special circumstance that may have affected the candidate’s performance but making no comment relating to the quality of the work.

4. The committee shall require the candidate to submit to an oral examination. In exceptional circumstances and only with the express approval of the Dean, the requirement of an oral examination may be waived.

5. The examining committee shall bear in mind that their judgement of the substantial significance of the thesis should take into account what may be reasonably expected of a capable and diligent student after two years of full-time study.

6. The examination of the thesis by the committee should normally be completed within three months. If the examining committee is unable to convene within three months then the Dean of Faculty shall be empowered to authorize a short extension of the examining period or to advise the Senatus Academicus that a new committee should be appointed.

7. No candidate may submit a thesis until the appropriate fee requirement has been met.

8. The examining committee shall make one of the following recommendations to the Senatus Academicus:

A. that the thesis be approved and the degree of M.D. be awarded subject to making any purely typographical corrections and revisions; or

B. that the thesis be not accepted in its present form but that the candidate be given the opportunity to make minor corrections to the thesis within a period of three months of the date of the examination and that, upon the convener of the committee being satisfied that these minor corrections have been effected, the thesis be approved and the degree of M.D. be awarded; or

C. that the thesis be not accepted in its present form but that the candidate be given the opportunity to revise the thesis and resubmit it within twelve months from the date of intimation to the candidate of the decision of Senatus; or
