University of St Andrews Fairtrade Policy

In line with its Sustainable Development Strategy and Sustainability Policy Statement, the University of St Andrews is committed to sustainable purchasing and to supporting Fairtrade. The University will strive to be a Fairtrade University and will work with the Fairtrade Foundation to formalise that status by committing itself to the following goals:

1. Sale and Offer of Fairtrade Products

1.1 Fairtrade Food
Fairtrade food will be made available for sale in all University shops and used in all University cafes, restaurant, and bars. Where this is not currently possible (for example due to purchasing constraints and long-term contracts), there will be a commitment to start using Fairtrade foods in these establishments as soon as it becomes feasible to do so.

1.2 Fairtrade Products
The University will endeavour to broaden the range of Fairtrade products that it is able to support and to offer. We will continue to work with our suppliers to review and expand the range of Fairtrade products available and that we can use within the University.
We will also continue to use fairly traded products such as the Just Trading Scotland Malawian rice and will investigate further options for use of fairly traded products such as lentils.

2. Hospitality
Fairtrade beverages will be provided at all University meetings served by the University's Central Catering Services. Where staff provide their own refreshments for meetings, they will be encouraged through publicity and campaigning to purchase Fairtrade tea and coffee.
All coffee, tea and sugar used within all of our catering sites are Fairtrade and we will ensure this continues.

3. Promotion
The University will proactively ensure that its internal processes allow Fairtrade and ethical aspects to be considered and promoted.
The University will work closely with the Students Association and students to campaign for increased Fairtrade consumption within the University. This will include, but will not be limited to, promotional events during Fairtrade fortnight, display of Fairtrade materials on noticeboards and where food is sold, articles in University and Students Association publications, and information on the University website.
The University will also work with the St Andrews Fairtrade Town Group in offering support, joint promotion and positive and pro-active engagement.
The Steering Group will increase outreach to the St Andrews community, encouraging shops to engage more with and stock fair trade products, especially those used most often by students (i.e. Tesco).

4. Steering Group
The process of achieving and maintaining Fairtrade status will be co-ordinated by a Fairtrade Steering Group which will report to the University's Sustainable Development Working Group on a quarterly basis.

5. Reporting
The Steering Group will work to develop these goals and will submit a report to the Fairtrade Foundation every 2 years for renewal of Fairtrade status.
