AV Equipment Instructions

Switching On:
Press the “On” button on the control panel on the wall (look for the blue lights). The “On” & “Main PC” buttons will now flash, and the projector will switch on.
NB. Allow about 30 seconds for the projector to warm up.
If there are no blue lights, turn the power on to the panel.

Using the Classroom PC:
Press the “Main PC” button on the control panel.
You may have to move the mouse to wake the PC up.

Using a Laptop:
Connect the laptop using the VGA/Computer (and AUDIO cable if required) lying on top of the cabinet.
Press the “Main PC” button on the control panel on the wall.
If necessary, press the appropriate key combination on your laptop (ie Fn+F5) to mirror the output of your laptop to the projector.
Connecting a laptop will automatically over-ride the PC image.

Using the DVD/VCR (if available):
Switch on the DVD/VCR player.
Press the “VIDEO” button on the control panel on the wall.
Insert your DVD/Tape.
Press the “Play” button on the DVD/VCR, or use the Remote Control if available.

Adjusting the Volume:
The volume controls are on the control panel on the wall, “Volume Up” & “Volume Down”.
If using the Classroom PC, or a laptop, please remember that there are volume controls on that too.

Auto Image Button:
Press this once, if the projected image from the laptop doesn’t look right.
This does not work with a DVD/VCR video input.

Picture Blank Button:
Press this once to “Blank” the image & mute the audio. The button will now flash.
Press it again to “UnBlank” the image & un-mute the audio.
You cannot press “Main PC” or “Video” while this flashes.

Switching Off:
Press the “OFF” button. Remove any Video Tapes/CDs/DVDs/USB sticks.
The “OFF” button will now flash for approximately 3 minutes, while the projector cools down.
The “ON” button will not work until the “OFF” button has stopped flashing.
The projector has a “Time Out” facility which activates if none of the buttons on the AMX panel are pushed. After 5 hours the projector will switch inputs, to S-Video. If none of the buttons are pressed, 5 minutes later, the projector will switch off.
