1. Open **Settings** on your device.

2. Select **Wi-Fi** (or **Wireless** depending on OS version). A new screen will open.

3. Select **uos-connect** from the list of available networks.

4. You will be redirected to the eduroam setup page.

5. Click **Go to eduroam setup** button. A new screen will open.

6. Authenticate using your St Andrews **username** and **password** then click on the **Log in** button. A new screen will open.

7. Click the **Download Certificate Authority Certificate** button. A new screen will open.

8. Name the certificate **St Andrews** and choose **Wi-Fi** from the two options in the **Credential Use** dropdown list. Click **OK**.

9. Close the web browser and go back to **Settings>Wi-Fi**.

10. Select **eduroam** from the list of available networks.

11. When prompted, enter the following information:

   - **EAP Method** - **TTLS**
   - **Phase 2 Authentication** - **PAP**
   - **CA Certificate** - select the **certificate file downloaded from uos-connect**
   - **Identity** - full St Andrews email address
   - **Anonymous identity** - **@st-andrews.ac.uk**
   - **Password** - St Andrews **password**

   N.B. Some options may be phrased differently, and the order of the settings may vary depending on the phone manufacturer and the version of the operating system.

12. Click **Connect** to complete the setup.
