1. In Settings > Wi-Fi, select **uos-connect**.

2. Open a web browser and go to [http://connect.st-andrews.ac.uk](http://connect.st-andrews.ac.uk). You will be redirected to the Network Setup page. Select Go to eduroam setup.

3. You will be asked for your University username and password. Select Log In.

4. Download the eduroam profile. Select **Install** when prompted.

5. You will be asked to enter your University password one more time.

6. Go to Settings > WiFi > Eduroam and click **Connect**. Open a web page (e.g. [http://www.st-andrews.ac.uk](http://www.st-andrews.ac.uk)) to check if you are connected.

7. Remove **uos-connect** from the list of known networks. To do this, open **Settings** then **Wi-Fi** and choose the icon beside the network name. Select **forget this network**.
