School of Management

Head of School
Professor P McKiernan

Degree Programmes
Graduate Diploma:
- Creativity Management (not available 2006-07)
- Finance & Management
- International Business
- Management & Information Technology (not available 2006-07)
- Marketing

M.Litt.:
- Finance & Management
- International Business
- Marketing

M.Sc.:
- Management & Information Technology

M.Phil.:
- Creativity Management (not available 2006-07)

M.Res.:
- Management Studies

Programme Requirements

Creativity Management (not available 2006-07)

Graduate Diploma: 120 credits from BS5401 – BS5403
M.Phil.: 120 credits as for the Graduate Diploma BS5404

Finance & Management

Graduate Diploma: 80 credits from BS5310, BS5311, BS5315, BS5316, plus 40 credits from (BS5011-BS5095, BS5120 – BS5195, BS5220 – BS5295, BS5320 - BS5395), plus 5 credits from BS4001
M.Litt.: 125 credits as for the Graduate Diploma plus either BS5198 or BS5199

International Business

Graduate Diploma: 80 credits including BS5105, BS5203, BS5204, BS5205 plus 40 credits from (BS5011-B5095, BS5120 – BS5195, BS5220 – BS5295, BS5320 - BS5395), plus 5 credits from BS4001
M.Litt.: 125 credits as for the Graduate Diploma plus either BS5198 or BS5199

Management Studies

M.Res.: 105 credits including SS5101, SS5102, SS5103, SS5104, MN5301, MN5302, MN5303, and one optional 15 credit module approved by the Course Director.
Marketing

Graduate Diploma: 80 credits from BS5103, BS5104, BS5105, BS5107, plus 40 credits from (BS5011-BS5095, BS5120 – BS5195, BS5220 – BS5295, BS5320 - BS5395), plus 5 credits from BS4001

M.Litt.: 125 credits as for the Graduate Diploma plus either BS5198 or BS5199

Management & Information Technology (not available 2006-07)

Postgraduate Diploma: 80 credits from modules IS5102, IS5103, BS5501, BS5502, 20 credits from BS5120, BS5130, BS5220 and 20 credits from IS5104, IS5105), plus 5 credits from IS5101

M.Sc.: 120 credits from modules as for Postgraduate Diploma, 60 credits from IS5199 or BS5599.

Modules

BS4001 Introduction to Business Issues and Research Methods
Credits: 5.0 Semester: Whole Year
Programme(s): Compulsory module for all Taught Postgraduate Programmes within the School
Description: This module will be delivered in two sections. In the first semester it is designed to ensure that all students have a thorough grounding in and understanding of the language of Business and Management. In addition, there will also be a focus on familiarizing students with the key precepts of study at master level and the development of an independent approach to learning. In the second semester the module will focus on developing an appreciation of the key approaches and requirements to undertaking effective business research.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 100%

BS5013 Marketing and Organisations
Credits: 20.0 Semester: 2
Programme(s): Optional module for all Taught Postgraduate Programmes in the School.
Description: This module critically challenges the view that a marketing orientation is a precursor for success in business environments. Alternative views are explored and critiqued against the backdrop of theories of organisational design. Specifically, the module shows how organisations can be analysed, designed and changed through the medium of different images of organisation. Drawing heavily on the seminal work by Gareth Morgan, each image focuses attention to significant aspects of the organizing process, and provides a distinctive means of understanding and managing organisations. The module is designed to show how marketing managers and any other organisational member can use these images of organisations as tools for guiding and informing action. Two key themes in the module are change and internationalisation: change because there is rarely anything which is “fixed” about organisational life; one way of looking at organisations is that they are always in a state of becoming; internationalisation because looking at organisations and theories from other countries helps you to understand your own organisations from a much wider and more valuable perspective.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%
BS5014 Marketing Planning and Strategy
Credits: 20.0 Semester: 1
Programme(s): Optional module for all Taught Postgraduate Programmes in the School.
Description: Drawing on the previous knowledge in the fundamentals of marketing and buyer behaviour modules, this module explores the conceptual and operational issues inherent in achieving a market orientation and the analytical tools available to marketing managers. The aim of the module is to provide students with a critical understanding of the role of marketing within organisations, and the benefits of adopting a marketing orientation, to provide a knowledge of the tools available to marketing managers in developing marketing strategies and evaluation strategies for assessing marketing success.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5015 Managing Human Resources
Credits: 20.0 Semester: 1
Programme(s): Optional module for all Taught Postgraduate Programmes in the School.
Description: This module reviews the key theoretical and practical aspects involved in managing human resources. The module content covers both the strategic and operational requirements necessary to secure, develop, reward and retain employees and to ensure their maximum contribution to organisational performance requirements. Individual, organisational and contextual factors that influence the management of people are also considered and throughout there is an emphasis on the critical, analytical and evaluative study of the subject.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5103 Marketing Research
Credits: 20.0 Semester: 2
Programme(s): Compulsory module for Marketing Postgraduate Taught Programme
Description: This module introduces students to the theories of research and to the practical demands of data collection and analysis. The module covers research philosophies, types of data and the associated techniques for its collection, including quantitative and qualitative methods. Practical use of computer packages for data analysis and analysis techniques is included. This module also provides a strong insight into the theoretical and methodological unpinning for the dissertation.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5104 Marketing Communications & Buyer Behaviours
Credits: 20.0 Semester: 1
Programme(s): Compulsory module for Marketing Postgraduate Taught Programme
Description: The aim of this module is to familiarise students with the concepts, theories and analytical techniques within marketing communications and buyer behaviour. This will allow them to understand how we are influenced and marketing communications’ role in this. At the core of marketing is the customer (consumer or business). This module will examine customers’ perceptions, motivations, social influences and decision making processes before exploring branding, advertising, the full range of promotional tools and the issues with these and how to evaluate the success of marketing communications. Throughout the module, the aim will be to balance the practice and the theory; students will be asked to critically evaluate the theories, concepts and examples that are presented as well as engaging in further reading to broaden their knowledge base.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%
BS5105 International Marketing

Credits: 20.0  Semester: see below
Programme(s): Compulsory module for International Business (Semester 2) and Marketing (Semester 1) Postgraduate Taught Programmes

Description: This module essentially involves the critical study of International Marketing. Key theories are examined carefully against the backdrop of questions such as: What is an International Marketing Strategy? How is it developed? What role does it fulfil in the organisation? The module will examine the macro and micro factors that influence and affect International Marketing. It is designed to equip students with the necessary skills to make Marketing decisions in a global context.

Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5107 Strategic Product Development

Credits: 20.0  Semester: 2
Programme(s): Compulsory module for Marketing Postgraduate Taught Programmes

Description: The success of all organisations is dependant on building a competitive portfolio of product offerings. This is a dynamic process that requires fusion of market understanding with knowledge and insights from across a business, its customer base and its supply chain. Drawing on studies of product development success this module will examine frameworks for managing new product development. This will involve an investigation of the strategic, process, organisational and cultural issues that have a direct influence on product success. The module will explore approaches within different business sectors and the relationship between product development and brand development. Special emphasis will also be paid to the critical role played by design in value enhancement. The module will conclude with an overview of product development futures and the complex challenges associated with multi-faceted product offerings associated with the rapidly evolving experience economy.

Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 100%

BS5120 E-Business

Credits: 20.0  Semester: 1
Programme(s): Optional module for all Taught Postgraduate Programmes in the School.

Description: This module examines different models and perspectives for e-business related strategies and actions in order to develop effective deployment strategies for the 'new' technologies. Whilst attention is often exclusively focused on the main issues surrounding buying and selling over the Internet this module also acknowledges the fact that there are many issues for strategy and action across the whole supply chain. As such, online buying and selling practice as well as the activities of servicing customers (pre and post-sale), collaborating with partners and transacting inside the organisation are evaluated. Finally, as all of these activities are conducted via applications that are enabled by an infrastructure the module also provides an overview of some key infrastructure elements.

Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%
BS5121 Marketing and Society

Credits: 20.0 Semester: 2

Antirequisite: BS5132

Programme(s): Optional module for all Taught Postgraduate Programmes in the School.

Description: This module examines the effects of marketing on societies. The powerful social and cultural influence of marketing has been widely recognised. Through branding and communication marketing shapes consumption, identity and relationships. Our appearance, ideas and behaviour are influenced by marketing in ways more subtle and pervasive than we might think. What we eat, drink and wear; where we live and how we travel; our work and leisure; even the most intimate details of our lives respond to the powers of marketing. The future of marketing is challenged by the negative connotations of globalisation. Actions by certain firms have caused strong reactions to negative effects on workers, consumers and environments, such that a plethora of anti-corporate protest movements has been mobilised in recent decades.

Class Hour: To be arranged.

Teaching: Lectures and seminars.

Assessment: Continuous Assessment = 100%

BS5123 Scenario Thinking and Strategy

Credits: 20.0 Semester: 1

Programme(s): Optional module for all Taught Postgraduate Programmes in the School.

Description: The structure of environments facing organisations or nations can lie on a scale where the ends represent the static and simple interplay of variables or their dynamic and complex counterparts. The former can best be understood by formal and systematic analysis where the use of quantitative forecasting techniques is especially useful. The latter, which represents the structure of many global sector and market environments, is best analysed using softer, qualitative techniques. Of these, scenario thinking has gained significant ground since its commercial birth in the 1960s. It involves the careful building of stories about how potential futures might evolve. This module will develop understanding of the complexity of environments through the use of scenarios and demonstrate the use of scenarios in public policy and strategy development. The methodologies are many and require multi-disciplinary input ranging from history, social anthropology, ethics, political economy, meteorology, global affairs amongst others.

Class Hour: To be arranged.

Teaching: Lectures and seminars.

Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5124 Business Marketing

Credits: 20.0 Semester: 2

Programme(s): Optional module for all Taught Postgraduate Programmes in the School.

Description: Industrial or business-to-business marketing (B2B) is concerned with the marketing of goods and services to commercial enterprises, institutions, governments, or other organizations. As such it differs considerably from most marketing courses that focus on the marketing of goods to final consumers (i.e., business-to-consumer marketing or B2C). B2B marketing deals with individuals and groups that represent organizations, some of whom may be larger and more powerful than the firm selling to them. In addition, these individuals often are trained specifically as professional buyers or have significant product knowledge. Finally, B2B markets are subject to derived demand that is frequently volatile in nature.

This module will focus on a wide range of issues including supply chain management, organizational buying behaviour, buyer-seller relationships, relationship marketing, partnering and strategic alliances, as well as the traditional 4 Ps.

Class Hour: To be arranged.

Teaching: Lectures and seminars.

Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%
BS5130 Consumption, Markets and Culture
Credits: 20.0 Semester: 1
Programme(s): Optional module for all Taught Postgraduate Programmes in the School.
Description: The module charts the historical development of consumer societies and explores the benefits, problems and challenges which these present for policy makers and for consumers. The module aims to be theoretically challenging in stimulating discussion about topics such as the changing perceptions of space and time; power; exchange needs and values; semiotics and consumer identity from different theoretical perspectives.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5131 Research Issues in Business, Management and Marketing
Credits: 20.0 Semester: 1
Programme(s): Optional module for all Taught Postgraduate Programmes in the School.
Description: This option module seeks to develop critical understanding and practical skills in research in the subject specific to Management. The module will develop and refine competencies that will occupy you throughout your professional career. Doing good research requires time, observation, diligence and reasoning. The module will explore issues, methods and dilemmas central to conducting and analysing management research. The central theme throughout the module will be the examination of the links between the theoretical and empirical realms. In taking this module the student will experience the challenges of research.
Class Hour: 11.00 am – 1.00 pm Wednesday.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5132 Advertising and Society
Credits: 20.0 Semester: 2
Availability: not available 2006-07
Antirequisite: BS5121
Programme(s): Optional module for all Postgraduate Taught Programmes in the School.
Description: The module examines the complex relationships between discourses of advertising and the societies that produce them. Main topics covered include: the social, technological and commercial context of the growth of advertising; its development as the primary form of marketing communication; advertisings influence on society and social institutions; advertisers use of language and the graphic arts; and how advertising shapes us physically, perceptually, morally and behaviourally.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 100%

BS5134 Technology and Toil: work and workplace relations in the nineteenth and twentieth centuries
Credits: 20.0 Semester: 2
Programme(s): Optional module for all Postgraduate Taught Programmes in the School.
Description: This module examines, on both a theoretical and practical level, the impact of technological change on working methods in a defined range of economic activities, from coalmining to call centres, during the nineteenth and twentieth centuries and analyses the way these changes influenced the nature and tempo of industrial relations in these sectors of the economy. Important theoretical debates regarding deskillling, flexible specialization and Fordism will be addressed, and set against the actual historical experience of work. The module will emphasise strongly the Scottish experience of such far-reaching technological changes, although students will be encouraged to assess similar changes and their impact in the context of their own national experiences.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 100%
BS5198 Group Dissertation

Credits: 60.0  Semester:  2
Prerequisites: An average of at least 13.5 in the preceding semester 1 and semester 2 core and option modules (to a total of 120 credits)
Anti-requisite: BS5199
Programme(s): Either BS5198 or BS5199 is a Compulsory module for M.Litt. in Finance and Management, International Business and Marketing
Description: This module provides students with the opportunity to undertake an in-depth investigation into issues within the field of business and finance. They are required to prepare a 15,000 word (approximately) report dissertation detailing justified conclusions and recommendations. This is a core element of the M.Litt. and is only available to students who achieve an average assessment grade of 14 13.5 or above in the 8 preceding taught modules in semesters 1 and 2 (to a total of 120 credits). Training in methodology will be provided to students in semesters 1 and 2 as preparation for the dissertation. Supervision of the dissertation is also provided. Each group will comprise up to 6 students. The group dissertation will comprise 70% of the assessment; the remaining 30% will be awarded for an individual report and log book. The individual report should either critically reflect upon working in a multi-cultural project team or on a specific topic related to the group project in both cases the exact topic for the individual report will require supervisor approval.
Class Hour: Workshops to be arranged.
Teaching: 4 one hour lectures and 4 two hour workshops. Students will then be given 6 hours of supervision.
Assessment: 15,000 word group dissertation report = 70%, 3,000 word individual report = 30%

BS5199 Dissertation Module

Credits: 60.0  Semester:  2
Prerequisites: An average of at least 13.5 in the preceding semester 1 and semester 2 core and option modules (to a total of 120 credits)
Anti-requisite: BS5198
Programme(s): Either BS5198 or BS5199 is a Compulsory module for M.Litt. in Finance and Management, International Business and Marketing
Description: This module provides students with the opportunity to undertake an in-depth investigation into issues within the field of business and finance. They are required to prepare a 15,000 word (approximately) report dissertation detailing justified conclusions and recommendations. This is a core element of the M.Litt. and is only available to students who achieve an average assessment grade of 14 13.5 or above in the preceding taught modules in semesters 1 and 2 (to a total of 120 credits). Training in methodology will be provided to students in semesters 1 and 2 as preparation for the dissertation. Supervision of the dissertation is also provided.
Class Hour: Workshops to be arranged.
Teaching: Up to 6 hours supervision per student.
Assessment: Continuous Assessment = 100%
BS5203 Managing People in Global Markets
Credits: 20.0  Semester: 2
Programme(s): Compulsory module for International Business Taught Postgraduate Programme
Description: The module focuses on the management of human resources in global markets and will help participants understand the problems of managing people in an international/multinational context. One of the most important trends in the development of modern economies is the increased globalization of business. Notwithstanding its economic and social impact, however, globalization is having a significant impact on how we manage people, not only in multinational enterprises but in our indigenous companies as, increasingly, we borrow ideas on ‘best practice’ from overseas. Such efforts at globalization, whilst generally successful in bringing economic success, have been fraught with problems, which are often the consequence of ethnocentric management teams and their attempts to export US-style “best practice” human resource management to other countries. Thus, it is critically important for globalizing firms to make sensible and contextually-sensitive decisions in key areas of human resource management, which take into account institutional, cultural and psychological differences between parent company institutions, values and practices, those of host countries and those of third country nationals employed to work in global organizations. These decisions usually concern such areas as how people are organized, recruited, selected, deployed, developed, motivated, compensated and how their performance is managed. They also focus on whether or not global organizations employ uniform human resource practices in their various locations throughout the world. Ultimately, effective international human resource management (IHRM) rests on a thorough understanding of the problems of managing people from different backgrounds and this module attempts to explore such problems in-depth and help students apply their understanding to practical managerial situations.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5204 International Finance
Credits: 20.0  Semester: 1
Programme(s): Compulsory module for International Business Taught Postgraduate Programme.
Description: This module is a survey of contemporary issues in international finance and international financial arrangements. The module deals with a selection from the following issues: exchange rates and exchange rate prediction; derivatives markets and their impact on the stability of the international macroeconomy; international capital mobility and its effect on the stability of the international macroeconomy; the relative efficiency of alternative arrangements for financing investment; risk assessment for international capital investment; new forms of international trade and international investment; international portfolio diversification; the causes and consequences of currency substitution; the anatomy of financial crises.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5205 Global Business Strategy
Credits: 20.0  Semester: 1
Programme(s): Compulsory module for International Business Taught Postgraduate Programme.
Description: International business strategy is a broad but at the same time synthetic discipline which comprises elements of the international political economy, financial aspects and strategic planning and implementation. This module draws these elements together in the context of the international business environment and seeks to define optimal paths to competitive advantage within this complex and fast-changing business context. The module introduces a wide variety of themes, explanations and interpretations that characterise strategic management. The module will challenge students to consider strategic problems in a rigorous manner and a suitable balance between strategic planning and strategy implementation is maintained.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%
BS5220 Issues in International Business Law
Credits:  20.0  Semester:  2
Programme(s):  Optional module for all Postgraduate Taught Programmes in the School.
Description:  This module involves a comprehensive examination of the legal regulation of international business. From an examination of fundamental concepts, it proceeds to a comparative, national perspective of modes of legal regulation of business. The national context is linked to the international institutional and substantive legal framework of international commercial transactions. Having looked at existing principles, emergent legal structures at a regional level (such as the EU), and the globally like the World Trade Organisation (WTO) will be analysed. This will enable an examination of the management of law and legal considerations within the international business enterprise, and seek to anticipate how legal considerations may be integrated into the organisation.
Class Hour:  To be arranged.
Teaching:  Lectures and seminars.
Assessment:  Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5310 Financial Accounting Information and Analysis
Credits:  20.0  Semester:  1
Programme(s):  Compulsory module for Finance and Management Taught Postgraduate Programme.
Description:  This module is designed to provide the basic level of familiarity with accounting and finance that all managers need. The module will emphasise the construction and interpretation of the cash flow statement, the profit and loss account and the balance sheet. It will provide a brief insight into the provision of accounting information for management and will provide a brief introduction to the financing of business and corporate interactions with financial markets in advanced capitalism. The module will conclude by examining the analysis of publicly available corporate financial information and the strengths and limitations of the information for understanding corporate performance.
Class Hour:  To be arranged.
Teaching:  Lectures and seminars.
Assessment:  Continuous Assessment = 50%, Two Hour Examination = 50%

BS5311 Corporate Financial Management
Credits:  20.0  Semester:  1
Programme(s):  Compulsory module for Finance and Management Taught Postgraduate Programme.
Description:  Financial decisions are made at all levels of management and thus are at the very heart of all organisations. Managers have broadly three major responsibilities in the financial domain which include investment decisions, financing decisions and managing financial risks. Sound financial decisions can help ensure the survival of organisations in an uncertain global environment. Broadly, this module will deal with the first two tasks. The aim of this module is to provide an introduction to modern theories of financial management and to show how to apply the theory to realistic financial decision problems.
Class Hour:  To be arranged.
Teaching:  Lectures and seminars.
Assessment:  Continuous Assessment = 30%, Two Hour Examination = 70%
BS5315 Research Methods in Finance and Management

Credits: 20.0  Semester: 2
Programme(s): Compulsory module for Finance and Management Taught Postgraduate Programme.

Description: The aim of this module is to provide students with an understanding of issues involved in the design of research projects within a finance and management discipline. This module aims to use recent seminal published work in selected areas of finance and management to examine issues of research design and methodology and, in doing so, aims to help students develop a critical perspective on research development and its contribution to the practice of finance and management. In particular, the module will cover areas such as identifying research areas, writing a literature review, identifying appropriate research techniques as well as the more technical aspects of quantitative research.

Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 100%

BS5316 Strategic Financial Management

Credits: 20.0  Semester: 2
Programme(s): Compulsory module for Finance and Management Taught Postgraduate Programme.

Description: The aim of this module is to equip students with the capability of being able to manage complex strategic and financial related situations. This module will apply important analytical tools for making sound decisions in the areas of mergers and acquisitions, valuation and corporate restructuring. Overall, this module will utilize the significant linkages between these areas, as well as between financial strategy and overall strategy management, to help strengthen their firm’s competitive advantage. An understanding of strategic management and corporate financial techniques is essential to assessing and developing an organisation's strategy to ensure they are matching the company's strategic advantages to the business environment in which they operate and the module seeks to address this requirement.

Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5320 Markets, Society and the Environment

Credits: 20.0  Semester: 2
Programme(s): Optional module for all Postgraduate Taught Programmes in the School.

Description: In the last ten years one of the most significant global trends has been a growing concern over globalisation and the increasing awareness of environmental change and anxiety and how this will affect society. The role of financial markets in these trends and how such developments will affect the operation of organisations (including public, private and third sector organisations in a wide variety of industries) come to the fore in this context. This module focuses on how such changes are likely to be experienced by the financial markets and by organisations influenced by those various markets. As an illustration, the module will include an examination of: (a) the market for funds (i.e. the capital market), (b) the market for regulation (especially the taxation system) and (c) the market for funds internally within the organisation (in the form of capital budgeting and project appraisal).

Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%
BS5321 Governance and Ethics

Credits: 20.0  Semester: 2
Programme(s): Optional module for all Postgraduate Taught Programmes in the School.
Description: Corporate governance embraces a vast area of study but is concerned primarily with how corporations are directed and controlled. Ethics is an even wider area of study concerned with the codes, practices and principles by which a society is guided and by which it should be judged. This module explores the theory, regulation and practice of corporate governance, examines the economic, legal and moral foundations for different approaches to governance and the conflicts that such criteria may raise for society’s aspirations for and control of its economic organisation. The interplay between financial markets and corporate governance is a pressing and complex matter which this module will explore.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, 2 Hour Examination = 50%

BS5330 Financial Systems

Credits: 20.0  Semester: 2
Availability: not available 2006-07
Programme(s): Optional module for all Postgraduate Taught Programmes in the School.
Description: Financial systems around the world are currently undergoing many changes. These changes arise from competition, consolidation, information technology, product and geographic expansion of manufacturing, service and financial services firms, de-regulation and re-regulation. These changes are taking place within a volatile and uncertain economic environment, and have direct implications for the development, growth and stability of financial systems. This module aims to outline the fundamentals of financial systems. A central theme running through the module is the influence of technology and innovation along with the challenges that this poses to regulators.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 30%, Two Hour Examination = 70%

BS5335 International Financial Management

Credits: 20.0  Semester: 2
Availability: not available 2006-07
Programme(s): Optional module for all Postgraduate Taught Programmes in the School.
Description: From daily financial management to long term strategic decision making, a full understanding of international finance is essential for all business managers. This module begins with the international monetary frameworks and the conduct of monetary policies in major developed economies. An essential feature of international finance is the crucial role of foreign exchange rate when cross-border transactions and capital flows occur. The determination and forecast of exchange rates and their interdependence with interest rates is discussed, together with the international money and capital markets and capital flows. Recent decades saw an explosion of new derivative products to hedge risks and an understanding of basic derivatives such as options and future/forward is required of the modern business manager.
Class Hour: To be arranged.
Teaching: Lectures and seminars.
Assessment: Continuous Assessment = 50%, Two Hour Examination = 50%
BS5401 Creative practice, all disciplines
Credits: 40.0 Semester: 1 & 2
Availability: 2007-08
Programme(s): Compulsory module for M.Phil. in Creativity Management
Description: This module will provide an opportunity for students to use the creative resources of the institutions to: build on their existing creative skills, techniques, understanding, imagination and experience; nurture and develop their creative ability to the highest level; establish an effective management framework for their creative practice (i.e. set their individual creative agenda, their direction and their focus, understand the processes and challenges of developing their practice); and employ critical and analytical thinking in relation to their practice.
Class Hour: To be arranged.
Teaching: Tutorials and other practical classes (at other institutions)
Assessment: Continuous Assessment = 100%

BS5402 Professional practice (team work and project delivery)
Credits: 40.0 Semester: 1 & 2
Availability: 2007-08
Programme(s): Compulsory module for M.Phil. in Creativity Management
Description: The aim of this module is to engage students in collaborative frameworks for project delivery in a professional context and to give the students experience of working in an interdisciplinary team to facilitate peer learning.
Class Hour: To be arranged.
Teaching: Tutorials and other practical classes (at other institutions)
Assessment: Continuous Assessment = 100%

BS5403 Creative Entrepreneurs: Principles & Practices
Credits: 40.0 Semester: Whole Year
Availability: 2007-08
Programme(s): Compulsory module for M.Phil. in Creativity Management
Description: This module provides the analytic tools and practical experience necessary for those in business in the creative industries. Analytically, the focus is on those areas vital for working and managing in the creative industries: thinking strategically; financial planning; teamwork in theory and practice and marketing. Academic input is matched by contributions from practitioners from arts, theatre and television who focus on strategic thinking and financial planning in the creative industries; teamwork in public relations; promotion and event planning; and intellectual property rights.
Class Hour: To be arranged.
Teaching: Lectures, seminars and practical classes.
Assessment: Continuous Assessment = 100%
BS5404 Leadership, Learning and Entrepreneurial Spirit

Credits: 240.0  Semester: Whole Year
Availability: 2007-08
Prerequisites: BS5401
Programme(s): Compulsory module for M.Phil. in Creativity Management
Description: The underpinning activities of this module are the application of a very high quality business plan and continued development of very high quality creative practice. It is envisaged that participants will gain pure and applied knowledge of ‘rolling out’ a business plan; negotiating financial investment (long and short term); event organisation; advertising and promotion of high quality work; branding and self-publicity; marketplace analysis and creative thinking. The promotion of knowledge transfer and ‘global marketplace contextualisation’ are ‘given’ activities within the programme infrastructure.
Class Hour: To be arranged.
Teaching: Master classes and coaching workshops.
Assessment: Continuous Assessment = 100%

BS5501 Strategic Management in the Information Age

Credits: 20.0  Semester: 1
Availability: not available 2006-07
Programme(s): Compulsory module for the MSc in Management & Information Technology Programmes.
Description: Over the last three decades one of the most significant global trends has been the rapid technical development of information technology and the parallel intensification in the commercial and administrative use of this technology by organisations. In this context this module will develop students' knowledge and understanding of the strategy process and develop an appreciation of organisational responses to the rapidly changing global economy. In addition to this, the module will develop a critical understanding of the challenges of operating in the information age and will also develop awareness of the range of approaches to organisational strategy; its purpose and the process of aligning corporate strategy with operational strategies in the knowledge economy. The module will challenge students to evaluate organisational processes, including marketing and promotion, logistics and supply chain management, in a rigorous manner and develop an understanding as to how organisational resources can be harnessed to respond to the organisational challenges of operating in an age of rapidly and easily accessible information.
Class Hour: To be arranged.
Teaching: One two-hour lecture and a one hour seminar.
Assessment: Continuous Assessment = 50%, Two Hour Examination = 50%

BS5502 Managing and Developing People

Credits: 20.0  Semester: 2
Availability: not available 2006-07
Programme(s): Compulsory module for the MSc in Management & Information Technology Programmes.
Description: This module reviews the key theoretical and practical aspects involved in managing and developing people at work and explores the organisational requirements necessary to promote a culture of continuous learning and adaptation to change. The module content covers both organisational and individual issues relating to human resource development (HRD), change management, the management of talented individuals and the managing people in technological environments. From the organisation's point of view, the module considers factors that both promote and block learning and reviews strategies for developing sustained organisational learning. From the individual's perspective, the module considers learning styles and strategies, individual competencies and their links with career development, organisational development and the notion of lifelong learning.
Class Hour: To be arranged.
Teaching: One two-hour lecture and a one hour seminar.
Assessment: Continuous Assessment = 50%, Two Hour Examination = 50%
BS5599 Dissertation in Management & IT
Credits: 60.0 Semester: Summer
Availability: not available 2006-07
Anti-requisite: IS5199
Programme(s): Compulsory module for MSc in Management & Information Technology Programme.
Description: This module provides students with the opportunity to undertake an in-depth investigation into issues within the fields of Management and Information Technologies. They are required to prepare a dissertation of not more than 15,000 words on an approved topic which shows appropriate competences in both fields. At least 25% of the work will involve IT and 25% will involve Management focus, Typically it comprises a related work review, extension of old or development of new ideas, their implementation and testing, summarised in a report, with the implementation based on sound theory and software engineering principles.
Class Hour: To be arranged
Teaching: Personal Supervision
Assessment: Dissertation = 100%

IS5101 Academic Project Planning
Credits: 5.0 Semester: Whole Year
Availability: not available 2006-07
Programme(s): Compulsory module for MSc in Management & Information Technology Programme.
Description: This module is designed to provide a streamlined progress path towards producing a personal academic project prior to carry out a major project and dissertation as part of a taught Masters programme. Students will be given the opportunity to submit and refine their plans in response to a series of lectures and workshops delivered over two semesters. Project management concepts and techniques will be introduced and reinforced by practical exercises using the capabilities of common software applications for planning. In addition generic skills will be covered which include research techniques, awareness of professional and ethical issues, document preparation, technical writing, evaluation and presentation.
Class Hour: To be arranged
Teaching: Combination of lectures and workshops
Assessment: Continuous Assessment = 100%

IS5102 Database Management Systems
Credits: 20.0 Semester: 1
Availability: not available 2006-07
Programme(s): Compulsory module for MSc in Management & Information Technology Programme.
Description: It is important for managers to understand what a database is, when to use a database, and what differentiates database from spreadsheets. This module covers: different types of databases including Microsoft Access and MySQL; the most appropriate database to choose depending upon the requirements of a project; database design including critical analysis of database information management systems. Database theory will also be covered including: Rational schemas, tuples, normalization, field types, queries and reports.
Class Hour: To be arranged
Teaching: One two-hour lecture and a one-hour seminar.
Assessment: Continuous Assessment = 100%
IS5103 Web Technologies
Credits: 20.0  Semester: 2
Availability: not available 2006-07
Programme(s): Compulsory module for MSc in Management & Information Technology Programme.
Description: A web application is a collection of web pages that interact with the user, with each other, and with various resources on a web server, including databases. It is important for managers to understand the different technologies that are used to develop web applications, not only to understand but to be able to discuss with web designers the needs of an organization when it comes to web sites. This module covers: Web accessibility, Cascading style sheets, and Web server technologies.
Class Hour: To be arranged
Teaching: One two-hour lecture and a one-hour seminar.
Assessment: Continuous Assessment = 100%

IS5104 Information Security Management
Credits: 20.0  Semester: 2
Availability: not available 2006-07
Programme(s): Optional module for MSc in Management & Information Technology Programme.
Description: This module reviews key theoretical and practical aspects of Information Security Management. The module content covers higher level technical and theoretical issues as well as management issues such as organizational, planning, certification, auditing and governance. From the student's perspective the module introduces students to a topical field of business and IT concern via varied learning styles and in depth consideration of current issues, standards and scenarios. The module uses both block learning and individual self-learning.
Class Hour: To be arranged
Teaching: One two-hour lecture and a one-hour seminar.
Assessment: Continuous Assessment = 100%

IS5105 IT Software Engineering Principles
Credits: 20.0  Semester: Either
Availability: not available 2006-07
Programme(s): Optional module for MSc in Management & Information Technology Programme.
Description: This module reviews and summarises the key concepts in large scale software development. Personnel and skills management in explored along with the human centric processes involved in appropriating system requirements, functionality and high level descriptions necessary to guide the development of and finally assess a working system. From the student's perspective, the module does not require prior programming knowledge as the skills set developed covers process, organisational and management issues. The module uses various learning styles and strategies, including self directed learning and presentational skills.
Class Hour: To be arranged
Teaching: One two-hour lecture and a one-hour seminar.
Assessment: Continuous Assessment = 100%
IS5199 Dissertation in Management & IT
Credits: 60.0 Semester: Summer
Availability: not available 2006-07
Anti-requisite: BS5599
Programme(s): Compulsory module for MSc in Management & Information Technology Programme.
Description: This module provides students with the opportunity to undertake an in-depth investigation into issues within the fields of Management and Information Technologies. They are required to prepare a dissertation of not more than 15,000 words on an approved topic which shows appropriate competences in both fields. At least 25% of the work will involve IT and 25% will involve Management focus. Typically it comprises a related work review, extension of old or development of new ideas, their implementation and testing, summarised in a report, with the implementation based on sound theory and software engineering principles.
Class Hour: To be arranged
Teaching: Personal Supervision
Assessment: Dissertation = 100%

MN5301 Application Packages for Management Research
Credits: 5.0 Semester: 2
Programme(s): Compulsory module for the MRes in Management Studies Programme.
Description: This module is designed to enable learners to attain an advanced level of proficiency in Information Technology. As such, it aims to further develop the learner’s knowledge of the theoretical concepts, principles, boundaries and scope of IT applications.
Class Hour: To be arranged
Teaching: Ten 2 hour sessions over the semester.
Assessment: Continuous Assessment = 100%

MN5302 Research Issues in Management
Credits: 20.0 Semester: 1
Programme(s): Compulsory module for the MRes in Management Studies programme.
Description: This module develops critical understanding and practical skills in research in Management. It focuses on the skills and knowledge involved in understanding, evaluating and conducting research in the wider management field. The module will develop and refine competencies that will occupy the students throughout their professional careers. Doing good research requires time, observation, diligence and reasoning. The module will explore issues, methods and dilemmas central to conducting and analysing research. The central theme throughout the module will be the examination of the links between the theoretical and empirical realms. In taking this module, students will experience challenges of research and, with a diligent approach, they will also experience the thrill of discovery.
Class Hour: To be arranged.
Teaching: One 2 hour lecture, one 2 hour practical and occasional tutorials.
Assessment: Continuous Assessment = 100%

MN5303 Theories and Current Issues in Management
Credits: 20.0 Semester: 2
Programme(s): Compulsory module for the MRes in Management Studies programme.
Description: This module will consider key theories of management work organisation in the modern era; assess the practical value of different theoretical approaches; analyse seminal periods in the development of contemporary work organisation; and assess the value of established theory for analysing management and work organisation in specific sectors.
Class Hour: To be arranged.
Teaching: One 2 hour lecture/seminar
Assessment: Continuous Assessment = 100%
MN5399 M.Res Dissertation module

Credits: 60.0
Programme(s): Compulsory module for the MRes in Management Studies programme.
Description: This module provides students with the opportunity to undertake an in-depth investigation into issues within the field of management studies and to prepare a 15,000-20,000 word project detailing justified conclusions and recommendations (as appropriate). The module is a core element of the MRes in Management Studies and is available only to students who achieve an average assessment grade of 14 or above in the 7 preceding core modules (BS 5101, 2, 3 and 4 and MN 5301, 2 and 3); and in 1 option. Supervision of the dissertation is also provided.
Class Hour: To be arranged.
Assessment: Dissertation = 100%

SS5101 Being a Social Scientist: Skills, Processes and Outcomes

Credits: 15.0 Semester: 1
Programme(s): Compulsory module for the MRes in Management Studies programme
Description: This module focuses on developing students’ specific research thinking and writing skills in a practically based way. Thus, the module will address the nature of being a research social scientist including exploring some of the ethical issues involved. The module will also consider selecting suitable research questions and framing these as appropriate for Masters and PhD dissertations.
Class Hour: To be arranged
Teaching: 3 hour lecture, fortnightly
Assessment: Continuous Assessment = 100%

SS5102 Philosophy and Methodology of the Social Sciences

Credits: 15.0 Semester: 2
Programme(s): Compulsory module for MRes in Management Studies
Description: Beginning with a discussion of the evolution of the social sciences, this module addresses central philosophical questions of social science including discussion of epistemological and methodological aspects of positivism and interpretivism.
Class Hour: To be arranged.
Teaching: Details to follow.
Assessment: Continuous Assessment = 100%

SS5103 Qualitative methods in Social Research

Credits: 15.0 Semester: 2
Programme(s): Compulsory module for MRes in Management Studies
Description: This module offers both a theoretical and practical introduction to qualitative research. The diversity of the approaches to qualitative research will be addressed but the focus of the module is primarily practical necessitating the active participation of students.
Class Hour: To be arranged
Teaching: 2 hour, weekly
Assessment: Continuous Assessment = 100%
