Master of Science Money, Banking and Finance

Programme Requirements

<table>
<thead>
<tr>
<th>Money, Banking and Finance - MSc</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 credits from Module List: EC5605, EC5608 - EC5609, EC5801, EC5901 and 20 credits from Module List: EC5225-EC5227, EC5606, EC5610 - EC5611, EC5722 and EC5899 (60 credits)</td>
</tr>
</tbody>
</table>

Compulsory modules:

**EC5605 Monetary Policy**

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCQF Level 11:</td>
<td></td>
</tr>
<tr>
<td>Semester:</td>
<td>2</td>
</tr>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
</tr>
</tbody>
</table>

This module will cover key issues in monetary policy. Topics will include: the case for price stability; time inconsistency and policy; the trade-off between inflation bias and output stabilisation; unconventional monetary policies; inflation targeting and other monetary frameworks; and the conduct of monetary policy in leading countries.

Programme module type: Compulsory for MSc in Money, Banking and Finance. Optional for MSc in Economics, and MSc in Finance and Economics.

Learning and teaching methods and delivery: **Weekly contact:** 2 lectures, tutorial (fortnightly)

Assessment pattern: 2-hour Written Examination = 50%, Coursework = 50%

Module coordinator: Dr K Ozhan

Module teaching staff: Dr K Ozhan

**EC5608 Financial Intermediation**

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCQF Level 11:</td>
<td></td>
</tr>
<tr>
<td>Semester:</td>
<td>2</td>
</tr>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
</tr>
</tbody>
</table>

This module will cover the main theoretical issues involved in financial intermediation, from the existence of banks through credit rationing and optimal contracts to bank runs, central banks and regulation. The module will concentrate on analytical models, but there will be some reference to current issues in existing financial systems.

Programme module type: Compulsory for MSc in Money, Banking and Finance. Optional for MSc in Economics, MSc in Finance, and MSc in Finance and Economics.

Learning and teaching methods and delivery: **Weekly contact:** Lectures, tutorial (fortnightly).

Assessment pattern: 2-hour Written Examination = 50%, Coursework = 50%

Module coordinator: Dr K Ozhan
### EC5609 Financial Econometrics

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level</th>
<th>Semester:</th>
<th>1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This module will introduce the students to the theory and practice of financial econometrics. The module will begin by introducing students to the classical linear regression model and a number of issues regarding its application to real world data. The module will then develop a number of time-series techniques that can be applied to the study of financial economics. Topics covered include: the linear univariate stochastic model, multivariate models, unit root processes and co-integration. By the end of the module students should be able to undertake empirical analysis using financial data.

**Programme module type:** Compulsory for MSc in Finance, and for MSc in Money, Banking and Finance.

**Learning and teaching methods and delivery:** Weekly contact: 2 lectures per week (x 9 weeks). 2 hours x 4 weeks of labs (weeks 2 or 3, 4 or 5, 7 and 9)

**Assessment pattern:** 2-hour Written Examination = 50%, Coursework = 50%

**Module coordinator:** Dr K Petrova

---

### EC5801 Money and Banking

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level</th>
<th>Semester:</th>
<th>1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This module provides an introduction to the economics of money, banking and financial markets. It aims to present students with a general overview of key monetary and financial market phenomena, the basic workings of financial and money markets and the tools and conduct of monetary policy. The module covers topics such as how financial markets and institutions operate, the risk and term structure of interest rates, financial regulation and supervision, and central banking among others.

**Programme module type:** Compulsory for MSc in Money, Banking and Finance.

**Learning and teaching methods and delivery:** Weekly contact: Lectures and tutorials.

**Assessment pattern:** 2-hour Written Examination = 50%, Coursework = 50%

**Module coordinator:** Dr M Knowles

---

### EC5901 International Finance

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level</th>
<th>Semester:</th>
<th>1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The module will cover key issues in international finance. Topics will include analyzing models of exchange rate determination, both nominal and real; and analysis of the determinants of international capital flows. The module will introduce a range of analytical models, together with a range of empirical and policy-oriented material.

**Programme module type:** Compulsory for MSc in Finance, and for MSc in Money, Banking and Finance.

**Learning and teaching methods and delivery:** Weekly contact: Lectures and tutorials.

**Assessment pattern:** 2-hour Written Examination = 50%, Coursework = 50%

**Module coordinator:** Dr G Mitka
### EC5899 Dissertation in Money, Banking and Finance

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>60</th>
<th>SCQF Level</th>
<th>11</th>
<th>Semester:</th>
<th>Whole Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This module provides students with the opportunity to undertake an in-depth investigation of a topic relevant and appropriate to the MSc. The dissertation takes the form of a substantially extended theoretical, analytical or empirical essay. The word limit for the dissertation is 15,000. The lecture part of the module will train students’ skills in framing a research hypothesis, conducting bibliographic research, writing a literature survey, and structuring a research paper.

<table>
<thead>
<tr>
<th>Programme module type:</th>
<th>Compulsory for MSc in Money, Banking and Finance.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learning and teaching methods and delivery:</td>
<td>Weekly contact: 5 lectures. Preparatory meeting and at least one supervisory meeting per month during the research period.</td>
</tr>
<tr>
<td>Assessment pattern:</td>
<td>Coursework (Dissertation) = 100%</td>
</tr>
<tr>
<td>Module coordinator:</td>
<td>Dr S Braun</td>
</tr>
</tbody>
</table>

### Optional modules:

#### EC5225 Experimental Economics and Finance

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level</th>
<th>11</th>
<th>Semester:</th>
<th>2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This module will start by exposing students to the methodology of experimental economics and finance. It will then review stylised facts and recent developments of its use to address various research questions in economics and finance. The rise of the use of experimental methods in economics and finance has created a useful dialogue between theoretical and laboratory-based empirical work. Typically, this process occurs as follows: experimental economists use human participants to test the behavioural implications of theoretical models in the laboratory; the new empirical evidence collected in the laboratory then suggests new venues for the development of novel theoretical models. This cycle then repeats itself. In this module we will sometimes consider such interplay between the development of theoretical models and the collection of empirical evidence in the laboratory.

<table>
<thead>
<tr>
<th>Programme module type:</th>
<th>Optional for MSc in Economics, MSc in Finance and Economics, MSc in Finance, and MSc in Money, Banking and Finance.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-requisite(s):</td>
<td>Admission to MSc Economics or a strong undergraduate training in microeconomics and relevant mathematical and statistical techniques.</td>
</tr>
<tr>
<td>Learning and teaching methods and delivery:</td>
<td>Weekly contact: 2 lectures, occasional tutorials.</td>
</tr>
<tr>
<td>Assessment pattern:</td>
<td>3-hour Written Examination = 75%, Coursework (1,500-word Technical Essay) = 25%</td>
</tr>
<tr>
<td>Module coordinator:</td>
<td>Prof M Costa-Gomes</td>
</tr>
</tbody>
</table>

#### EC5227 Behavioural Finance

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level</th>
<th>11</th>
<th>Semester:</th>
<th>2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planned timetable:</td>
<td>To be arranged.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Traditionally, Financial Economics assumes that investors and other market participants are perfectly rational. While this is a good first approximation, we currently know there are a number of systematic biases in people’s behaviour. The goal of this module is to discuss how these biases affect financial markets and investors’ decisions. We will start with describing the most relevant deviations (such as overconfidence, representativeness and others), and we will continue with various financial applications. We will talk about bubbles, herding, and implications for corporate decisions and investors’ behaviour.

<table>
<thead>
<tr>
<th>Programme module type:</th>
<th>Optional for MSc in Economics, MSc in Finance, MSc in Finance and Economics, and MSc in Money, Banking and Finance,</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learning and teaching methods and delivery:</td>
<td>Weekly contact: 20 hours of lectures over 11 weeks, 1-hour laboratories (x 5 weeks) plus 1 office hour (x 12 weeks)</td>
</tr>
<tr>
<td>Assessment pattern:</td>
<td>2-hour Written Examination = 50%, Coursework (incl Class Test, 25%) = 50%</td>
</tr>
<tr>
<td>Module coordinator:</td>
<td>Dr M C Iannino</td>

</table>
EC5606 Corporate Governance and Risk

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level 11</th>
<th>Semester:</th>
<th>2</th>
</tr>
</thead>
</table>
Planned timetable: To be arranged.

Three key components: (1) corporate governance; (2) risk management; and (3) financial management. Detailed content may vary year by year, but typically would include: mergers, takeovers, corporate control, governance, financial architecture, risk capital; risk in corporate and international settings; market consequences of managerial behaviour; corporate governance in family firms; financial distress and bankruptcy resolution.

Programme module type: Optional for MSc in Economics, MSc in Finance, MSc in Finance and Economics, and MSc in Money, Banking and Finance.

Pre-requisite(s): EC5601

Learning and teaching methods and delivery: Weekly contact: 2 lectures, 1 tutorial.

Assessment pattern: 2-hour Written Examination = 50%, Coursework = 50%

Module coordinator: Dr M La Manna

EC5611 Portfolio Theory and Management

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level 11</th>
<th>Semester:</th>
<th>2</th>
</tr>
</thead>
</table>
Planned timetable: To be arranged.

This module aims to develop students' knowledge and understanding of key issues in asset allocation and portfolio composition/management at an advanced level. Moreover it aims to provide students with the opportunity to develop their ability to critically understand current theoretical and empirical research in the field of portfolio management and the implications of such research into alternative portfolio composition and management strategies.

Programme module type: Optional for MSc in Economics, MSc in Finance and Economics, MSc in Finance and MSc in Money, Banking and Finance.

Learning and teaching methods and delivery: Weekly contact: 2 lectures, occasional tutorials.

Assessment pattern: 2-hour Written Examination = 70%, Coursework = 30%

Module coordinator: I Psaradellis

EC5722 Risk Management

<table>
<thead>
<tr>
<th>SCOTCAT Credits:</th>
<th>20</th>
<th>SCQF Level 11</th>
<th>Semester:</th>
<th>2</th>
</tr>
</thead>
</table>
Planned timetable: To be arranged.

This module provides the student with an introduction to standard techniques in risk and insurance. The implementation of sound quantitative risk models to assess and insure against risk is a vital concern for all financial institutions. The module provides a comprehensive treatment of the theoretical concepts and modelling techniques of quantitative risk management. It provides students with practical tools to solve real world problems, in the context of portfolio management and credit risk. A major theme underlying all topics is the importance of ambiguity, especially regarding partial knowledge of asset distributions and investor preferences. Throughout we will relate the class discussion to current economic conditions.

Programme module type: Optional for MSc in Economics, MSc in Finance, MSc in Finance and Economics and MSc in Money, Banking and Finance.

Pre-requisite(s): EC5601

Learning and teaching methods and delivery: Weekly contact: Lectures and tutorials.

Assessment pattern: 2-hour Written Examination = 50%, Coursework = 50%

Module coordinator: Dr M Zhang
