The medical course takes the form of an integrated spiral curriculum. Foundations of Medicine 1 and 2 form the initial turn of the spiral in which fundamentally important knowledge is reviewed. During subsequent turns of the spiral, topics will be revisited at a more advanced level and with increasing clinical application. A series of core clinical cases illustrates the clinical context throughout Foundations of Medicine 1 and 2. Foundations of Medicine 1 reviews molecular and cellular medicine; provides a general overview of the structure and functions of the body systems from the microscopic to the macroscopic level; gives a preliminary introduction to medical ethics and communication skills relevant to medicine; uses clinical problems to develop an understanding of the levels of consciousness and the assessment of health status. The module also includes an anatomical overview of the major body systems and the dissection of the back.

Programme module type: Compulsory for BSc Honours Medicine - not available to any other students

Pre-requisite(s): There will be direct entry into course for students approved by the Faculty Executive Group of Medicine.

Required for: MD3001, MD3002

Learning and teaching methods and delivery:

Weekly contact: 10 Lectures and 6 hours of seminars/tutorials/practicals each week. Clinical case studies, clinical and communication skills on a 2-week cycle including 1 x 2 hours session with volunteer patients. Up to 6 hours per week of directed self-learning

| Scheduled learning: 250 hours | Guided independent study: 350 hours |

Assessment pattern:

As defined by QAA:
Written Examinations = 75%, Practical Examinations = 0%, Coursework = 25%

As used by St Andrews:
Module Examinations will comprise 2 written examinations totaling 75% of the module grade.

Coursework will comprise a written examination totaling 25% of the module grade.

Re-Assessment: 2 x 1.5-hour Written Examinations = 100%

Module Co-ordinator: Dr A Hughes, Dr A Stewart

**Academic year:** 2015/6 & 2016/7  
**Availability restrictions:** Available only to students enrolled in the BSc Honours Medicine programme.  
**Planned timetable:** To be arranged.

Foundations of Medicine 2 continues the introduction of fundamental topics into the curriculum including the principles of disease mechanisms and therapy, and the development of clinical and communication skills. Foundations of Medicine 2 provides an in-depth study of the musculo-skeletal system including nerve and muscle physiology, control of movement and the autonomic nervous system. The anatomy of the upper and lower limbs are studied by dissection. A particular focus for this module is the introduction of topics essential to the practise of medicine, including public health and health psychology. The clinical problems in this module centre on deep vein thrombosis, trauma, bronchial carcinoma and stroke.

**Programme module type:** Compulsory for BSc Honours Medicine - not available to any other students  
**Pre-requisite(s):** There will be direct entry into course for students approved by the Faculty Executive Group of Medicine.  
**Required for:** MD3001, MD3002

**Learning and teaching methods and delivery:**  
**Weekly contact:** 10 Lectures and 6 hours of seminars/tutorials/practicals each week. Clinical case studies, clinical and communication skills on a 2-week cycle including 2 x 2 hour sessions with volunteer patients. Up to 6 hours per week of directed self-learning.  
**Scheduled learning:** 250 hours  
**Guided independent study:** 350 hours

**Assessment pattern:**  
As defined by QAA:  
Written Examinations = 75%, Practical Examinations = 0%, Coursework = 25%  
As used by St Andrews:  
Module Examinations will comprise 2 written examinations totaling 75% of the module grade.  
Attainment of competence in clinical skills appropriate to this stage of a medical curriculum as demonstrated in a pass/fail objective structured clinical exam (OSCE).  
Coursework will comprise a written examination totaling 25% of the module grade.

**Re-Assessment:**  
2 x 1.5-hour Written Examinations = 100%  
**Module Co-ordinator:** Dr A Hughes
MD2201 The Art of the Medical Practitioner

**Academic year:** 2015/6

**Availability restrictions:** Available only to students on the one-semester Pre-health Study Abroad Programme.

**Planned timetable:** To be arranged.

This programme will be comprised of:

- A series of ten three-hour workshops, including practical demonstrations
- Visits to a GP surgery where patients with specific conditions, including Orthopaedic, Respiratory, Neurological and Cardiovascular, will be presented and examined.

The workshops are designed to demonstrate “The Art of Medicine” and its practice in clinical and academic settings. Participants will be actively encouraged to develop their own powers of observation through examination of cadaveric pro-sections, medical X-ray investigations and clinical examination of patients.

**Topics covered include:**

- How to take a patient history
- Taking a history from simulated and volunteer patients
- Patient journey and the effect of their conditions have had upon them (socially, financially, psychologically)
- Importance of effective infection control (MRSA, pandemics etc.)
- Essay topic
- The anatomy of limbs and the thorax in the context of clinical disease presentations

By the end of the workshops, students will have developed skills in clinical communications. Workshops will underline the fundamental importance of understanding the basics so that one can diagnose conditions by building on the basic sciences whilst applying the art of the clinician.

**Programme module type:** Available only to students on the one-semester Pre-health Study Abroad Programme - not available to any other students

**Pre-requisite(s):** Must be on the North American Pre-Health Study Abroad Programme

**Learning and teaching methods and delivery:**

**Weekly contact:** 3-hour practical class (x 1 week), 3-hour tutorials (x 8 weeks), 3-hours of Field work (x 1 week)

**Scheduled learning:** 30 hours  
**Guided independent study:** 20 hours

**Assessment pattern:**

- As defined by QAA:  
  Written Examinations = 0%, Practical Examinations = 50%, Coursework = 50%

- As used by St Andrews:  
  Presentations = 50%, Coursework = 50%

**Re-Assessment:**

**Module Co-ordinator:** Dr A Collinson

**Lecturer(s)/Tutor(s):** Dr A Collinson, Prof A Parkin
