Introduction - Programme Requirements - 2016/7 - August 2016

Introduction to the Programme Requirements

The purpose of this Catalogue is to provide students and their Advisers with the information they need in order to make academically informed choices about degree programmes and modules or combination of modules.

The main body of this Catalogue is structured in relation to the degree programmes which are offered by eighteen Schools in the University. In addition, there are sections for the BA (International Honours) programme in collaboration with the College of William & Mary (section 22), and an index of modules (section 23)

Explanation of Fields in Module Entries

Module number and Title. Self explanatory - module numbers are unique. The third character indicates the module level.

Academic Year. The academic session (whether current or planned) in which the module will be offered.

SCOTCAT Credits. The number of credits associated with a module gives an indication of the amount of learning involved. For example, 1000-level modules in the School of Art History are each worth 20 credits. One credit represents the outcome achievable by the average student through 10 notional hours of learner effort. In practice, one full-time undergraduate year is considered to be 120 credits worth of learning (or 1,200 notional hours of learning).

SCQF Level. The Scottish Credit and Qualifications Framework (SCQF) Levels provide an indication of the complexity of qualifications and learning. See also Level (below) and http://scqf.org.uk/wp-content/uploads/2014/03/SCQF-Revised-Level-Desctiptors-Aug-2012-FINAL-web-version1.pdf

Semester. The Semester or Semesters in which the module is taught. ‘Whole Year’ means that it is taught across the two semesters. The St Andrews teaching year has two semesters (September - December, and January - May).

Availability Restrictions. If a module is available but with constraints, these particular restrictions will be clarified in this field.

Planned Timetable. Where a single time is given (e.g. 9.00 am) the class meets for one hour. If days of the week are not specified, the class meets every day from Monday to Friday, with the usual exception of Wednesday afternoons. Further details may be provided in this field.

Description. This is a brief statement of the content of a module.

Pre-requisite(s). Modules or qualifications which must be passed prior to this module. Modules may have pre-requisites reflecting the assumption that they build upon previous knowledge gained. So, for example, the pre-requisite for entry to 2000-level modules in French is a pass in either or both of the 1000-level modules. In the case of certain modules, largely 1000 level, pre-requisites may be framed in terms of specified passes at Higher or A-level. The Head of the relevant School has the authority to waive a pre-requisite. Where the pre-requisite is not simply a pass in another module but includes a grade (eg, ‘11 or better’) the number refers to the 20-point reporting scale.

Co-requisite(s). A module which must be taken in the same academic session as the one listed.

Anti-requisite(s). Students may not take a module if they have already passed or are currently taking any module or other qualification specified as an anti-requisite to it.

Required for. This field indicates where a module is required to be passed, as a pre-requisite for another module.

Programme module type. This indicates how the module fits into various programmes of study and whether it is compulsory or optional - see below.

Compulsory / Optional. In the ‘Programme module type’ field, modules are identified as either ‘Compulsory’ or ‘Optional’ for a programme or group of programmes. ‘Compulsory’ modules must be taken for the programmes named. Modules defined as ‘Optional’ are appropriate to fulfil degree credit requirements for the named programme(s). Students may select ‘Optional’ modules and will be allowed entry to those modules which are agreed with their Adviser of Studies for each year of study.

Learning and Teaching Methods and Delivery. This gives the anticipated Weekly Contact hours with academic staff and the formal breakdown of Scheduled Learning/Guided Independent Study as defined by the Quality Assurance Agency (QAA).

Weekly Contact. This will be an indication of the weekly teaching provision for each student. Where the pattern of teaching varies from week to week, the average weekly contact is given. Various activities may be included. (tutorials, laboratory work, practical sessions, lectures, fieldwork, consultation hours etc).

Scheduled Learning - time spent with an academic member of staff.
Guided Independent Study - time which a student is expected to undertake alone but often under direction.

Assessment pattern. A brief description of the distribution between assessed coursework and formal examination. A percentage breakdown of which elements of assessment qualify in each Quality Assurance Agency (QAA) defined category are also given. These may match the narrative description ("As used by St Andrews"), or they may differ slightly because some elements of Coursework (Class Tests for example) can be considered Written Examinations in a QAA context.

Re-Assessment pattern. This is the method by which a module will be re-assessed if it is failed in the main assessment.

Module Co-ordinator. The academic member of staff responsible for this module, or the contact point for further information.

Lecturer(s)/Tutor(s). One or more academic members of staff who are planned to deliver the content of the module.

Glossary of Other Commonly used Terms

Academic Year. An academic year is synonymous with academic session (September to end of August), and comprises two semesters and the summer break.

Advanced Standing Credit. This term is used in relation to entrant students who may be awarded a certain number of credits on the basis of certificated learning already earned in order to facilitate accelerated progression in a named degree programme. Advanced Standing Credits may be withdrawn if the student does not progress in the degree programme for which the credits were awarded. See also RPL - Recognition of Prior Learning.

Advising. The process of a student’s choice of modules being discussed with their Adviser of Studies and checked against programme requirements before being formally approved.

Assessment. The method by which the final grade for a module is determined. This can be made up of Coursework, Practical Examinations or Written Examinations, or combinations of more than one type of assessment.

Certificate of Higher Education. Available to a student who has gained at least 120 credits and wishes to leave the University with a recognised qualification.

Common Reporting Scale (20-point) This is a scale from 0 to 20 used for recording the grade achieved in the assessment of a module. Pass grades are 7 to 20 and fail grades are 0 to 6.9.

Credit Loads. Normally a full-time student takes modules worth 120 credits during each academic year. Full-time students must take at least 20 credits per semester, and at least 80 credits and no more than 160 credits in a given academic year. Part-time students must take at least 20 credits per semester and no more than 80 credits each academic year.

Credit Transfer. This refers to the ability of students to transfer credits earned in one institution to another one in order to continue their studies. See also European Credit Transfer System (ECTS); RPL - Recognition of Prior Learning. For information about Credit & Grade Conversion for grades achieved on approved Study Abroad programmes, please see www.st-andrews.ac.uk/studyabroad

Degree Pathway. For each degree, the pathway will be either a single Programme Requirement (for single Honours) or a combination of Programme Requirements for each element of a Joint Honours or Triple degree.

Diploma of Higher Education. Available to a student who has gained at least 240 credits, including at least 80 credits at 2000 level, and wishes to leave the University with a recognised qualification.

Entry requirements. For students applying for admission to a degree programme, there are general entrance requirements. For Undergraduates, these are normally based on school-leaving qualifications, and normally require a pass in English. In addition, specific degree programmes may require qualifications in designated subject areas. For information relating to English Language qualifications, please see www.st-andrews.ac.uk/elt/entry/undergraduate

European Credit Transfer System (ECTS). All modules have an accreditation in the ECTS scheme. Since St Andrews operates on an annual load of 120 credits and ECTS one of 60 credits, credits transferred to other institutions will be exactly half of the credits shown for each module. The grade for each module will be calculated according to established ECTS procedures and, therefore, it will not necessarily be the same as a grade for a module awarded by this University. For information about Credit & Grade Conversion for grades achieved on approved Study Abroad programmes, please see www.st-andrews.ac.uk/studyabroad
Introduction - Programme Requirements - 2016/7 - August 2016

Exit Awards. For students who are admitted to a degree programme (Honours degrees or General degrees) there are two exit points for those who do not proceed to the intended degree award but wish to leave the University with a recognised qualification. They are the Certificate of Higher Education and the Diploma of Higher Education. A General Degree may also be a valid exit award for students who do not meet the requirements for the award of an Honours Degree.

Faculty. Successful applicants are made offers to study in a Faculty. There are four faculties: Arts, Divinity, Medicine and Science. Although Arts and Divinity are treated as a single entity for administrative purposes, Divinity degrees have a discrete set of Regulations and requirements. Several Schools offer both BSc and MA degrees, governed by the relevant Science or Arts Regulations.

Failure to Register Policy. This policy relates to students who fail to complete the registration process in any given academic year in which they are actively engaged with their studies, or who fail to obtain permission from the University to interrupt their studies. Failure to register by the published deadlines will result in termination of studies. For details see policy at:

http://www.st-andrews.ac.uk/students/rules/matrículation/FailuretoRegisterPolicy-UGandPGT/

General Degree. General requirements are 360 credits over a period of normally three years, and not more than four (or part-time equivalent); 80 credits are required at 2000-level; 60 are required at 3000-level. Refer to the appropriate Faculty Regulations for lists of subjects recognised as qualifying toward a BSc, MTheol or MA degree.

Grade. A student who passes a module will have gained both credits, reflecting the workload and study time of the module, and a grade, reflecting the quality of the work. The grade is numeric and recorded on the Common Reporting Scale. Grades are visible on the student's record card after each reporting period.

Honours Degree. This degree is awarded to a student who over a period of normally four years and no more than five years (or the equivalent period of part-time study) gains at least 480 credits. The course of study for the degree is in two periods: in the first (see Sub-honours), usually over a period of two but not more than three years (or the equivalent period of part-time study), the student gains 240 credits, including passes in at least 80 credits in 2000-level modules. On the basis of performance in the 2000-level modules, a student may be admitted to the second period of study, consisting of two years in an Honours Programme, leading to a Single, Joint, “With”, Triple Subject or Interdisciplinary degree. The Honours Programme normally involves the study of modules worth at least 240 credits, of which at least 210 will be in Honours modules (also referred to as 3000-, 4000- or occasionally 5000-level modules), except for the BA (International Honours) degree, where special regulations apply.

Some Honours programmes require all 240 credits to be in Honours modules of the subject(s) of the programme, while others require a minimum of 210 credits in Honours modules in the subject(s) of the programme. In the latter case, a student, with the permission of the Head of School, may take 30 credits in 1000- and/or 2000-level modules (‘dip down’) or 30 credits in an Honours module or module(s) outwith the programme (‘dip across’). The MMBiochem, M Biol, MChem, MGeoL, MGeoL, MPhys, MSci, BSc (with Integrated Year Abroad), MA (with Integrated Year Abroad) typically take a total of five years to complete, and are the exceptions to the 240 credit requirement for Honours programmes. The relevant School entry should be consulted for more information.

Honours Programme. The Honours Programme is that part of the degree programme to which the student is admitted after satisfying the 1000- and 2000-level pre-requisites. It normally comprises 3000-level modules and above. The duration of the Honours Programme is two years in the case of the BD, BSc, MA and MTheol degrees or three years in the case of BSc/MA with Integrated Year Abroad, MBBiochem, MMBiol, MChem, MGeoL, MMarBiol, MMath, MPhys, and MSci.

International Honours programmes are offered in collaboration with the College of William & Mary, Virginia, U.S.A, whereby students divide their sub-honours and Honours programmes between the two institutions. Special regulations apply to these programmes.

Joint Honours degrees. These are degrees where both subjects are included in the degree title and the required credits for the first subject and the required credits for the second subject are typically 50% in each subject (120:120). The proportions can vary so long as the ratio remains lower than 2:1 (e.g., credit distributions of 155:85, 140:100, or 120:120 are all valid). Ratios above 2:1 (where no fewer than one-quarter and no more than one-third of the credits are taken in one of the two subject areas) are defined as With degrees rather than Joint Honours degrees. Degrees where a second subject is studied for less than one-quarter of the total credits are classified as Single Honours Degrees.

Levels. There are five Levels of modules: 1000 level = SCQF 7, 2000 level = SCQF 8, 3000 level = SCQF 9, 4000 level = SCQF 10, 5000 level = SCQF 11. These levels represent increasingly demanding levels of academic difficulty. Normally the right of entry to a module is conditional upon a pass in one or more modules taken at a lower level of study. See also SCQF Level.

Major Element. The first named subject in a “With” degree programme is described as the major element. For example, in the degree MA (Hons) Spanish with Geography, Spanish is the major element in the degree programme.
Introduction - Programme Requirements - 2016/7 - August 2016

Minor Element. The second named subject in a “With” degree programme is described as the minor element. For example, in the degree MA (Hons) Spanish with Geography, Geography is the minor element in the degree programme.

Module. Each module is self-contained unit of teaching, learning and assessment. The key elements of a module are SCOTCAT credits, levels of study, title, description of content, requisites (pre-,co- or anti-), assessment requirements, and availability (academic year and semester). For the majority of modules teaching takes place in an 11-week learning period, perhaps broken by a vacation, or by an independent learning week in which no formal contact hours are provided. In many cases the learning block will be followed by an examination. Some modules are concentrated into a shorter period, and some are taught over two semesters.

Pre-Advising. The process by which a student makes a preliminary choice of modules for the following academic session. This process is required but is not formalised until Advising has taken place.

Programme Requirements. The combination of modules and credits required in each year of the programme in order to be awarded a qualification.

Qualifications. Each type of qualification (e.g. BSc or MA) is governed by a set of Senate Regulations, and is awarded under a specific Court Resolution. All taught degree programmes require a programme specification published with guidance from the Quality Assurance Agency (QAA) and referencing the Scottish Credit and Qualifications Framework (SCQF).

- The Faculty of Arts may award MA General and Honours degrees. There is a BA (International Honours) degree awarded jointly with the College of William & Mary, Virginia, USA. There is also a Licentiate of Integrated European Studies (see page x.5) which may be taken by European students in the School of Modern Languages.

- The Faculty of Divinity may award General and Honours MTheol and BD. degrees.

- The Faculty of Medicine may award General and Honours BSc Medicine degrees.

- The Faculty of Science may award General and Honours BSc degrees as well as Integrated Masters in MBiochem, MBiol, MChem, MGeoL, MMarBiol, MMath, MSci and MPPhys. degrees.

RPL - Recognition of Prior Learning (RPL) is the recognition by the University of St Andrews, for its academic purposes, of prior learning that has taken place elsewhere. RPL may facilitate admission to a degree programme (undergraduate or postgraduate); provide advanced standing on a programme, or lead to the award of credit to count towards a programme’s requirements. RPL may be as a result of Certificated Learning (RPCL) or Experiential Learning (RPEL).

Semester. The academic session is divided into distinct teaching periods called semesters. Semester 1 runs from September to December, Semester 2 runs from January to May.

Session. An academic session, also sometimes referred to as Academic Year, comprises two semesters and the summer break.

Single Honours Degrees. These are degrees where credits for an Honours programme are obtained predominantly in one subject. Flexibility at Honours level, means that in programmes where the programme requirements allow it, one or two modules (less than 60 credits total) may be taken outwith the named subject area. The subject area(s) of these modules is not named in the Degree. See also Joint Honours degrees, Triple Subject Degrees and "With" degrees.

Sub-honours. 1000- and 2000-level modules are considered 'sub-honours' and specific modules at these levels are required to be passed with specific grades to be admitted to an Honours programme.

Triple Subject Degrees. These are degrees in which three subjects (at least two of which are in the School of Modern Languages) are studied at Honours level. The proportion of credits in each subject may vary from one-quarter to one-half of the total Honours credits, depending on the individual programme requirements, but all three subjects are included in the degree title.

"With" Degrees. These are degrees where credits for an Honours programme are obtained from two subject areas, and where no fewer than one-quarter and no more than one-third of the credits are taken in one of the two subject areas. Degrees where a second subject is studied for less than one-quarter of the total credits are classified as Single Honours Degrees, but both subjects are included in the degree title. See also Major and Minor elements.
