Procedures for submitting the final hardbound copy and electronic copy of your research thesis

Students who have had their thesis examined and completed any necessary corrections are required to submit one hardbound copy and an electronic copy on CD of their thesis as part of the preparations prior to graduation.

You should submit your thesis directly to: Academic Registry (Postgraduate Research)
The Old Burgh School
Abbey Walk
St Andrews
Fife KY16 9LB

Only one bound copy (unless part embargo has been approved) should be submitted and one electronic copy on CD, preferably in PDF format - the bound copy should contain the final and agreed declarations signed by both you and your supervisor, though there should be no signatures on the final and agreed declarations on the electronic copy.

The requirement for the colour of the Library’s copy of a thesis is black, dark blue or maroon.

The thesis should be hard case binding; the front cover should bear the title of the thesis and candidate’s name in 14pt type. The spine, reading from top bottom, should give the type of award, the name of the candidate, and the year of graduation in 18pt type. For example:

PhD J SMITH 2011

Information on binding your thesis can be found here: https://www.st-andrews.ac.uk/printanddesign(binding/)

If you are overseas the Print and Design Unit at the University has the facility for you to email them an electronic copy (in PDF format) of your thesis and they will print and bind your thesis and burn a CD copy. Please be aware however that you will also need to make arrangements with your supervisor to ensure that there are handwritten signatures in the declarations in the hardbound copy from both you and your supervisor (these may be scanned or photocopied).

The regulations do not permit you to graduate until you have complied with all the above.

St Andrews Research Repository Registration and Submission
You will receive an email from St Andrews Research Repository inviting you to register and this invitation will be made via your St Andrews email account (email digirep@st-andrews.ac.uk for further information). You will be requested to submit information about your thesis, and provide enriching metadata, including author, supervisor and title details, full abstract and subject keywords and to grant the deposit license. Repository administrators will observe the relevant embargos on this information if you have had embargo requests approved.

This registration is necessary to complete the submission of your electronic thesis and will enable us to provide you with a permanent citation to the online electronic copy of your thesis.

Research Data/Digital Outputs
You should check if any funder’s requirements on research data/digital outputs applies to your work and, if so, you should take the required steps to meet them. If you require any advice, please contact the Library Research Data Management team (email research-data@st-andrews.ac.uk).

We hope this information helps you, if you have any further queries please do not hesitate to contact us:
