

Progression warning

Dear [Student],

Following the publication of the recent module results, I note that there is a risk that you will not fulfil the requirements laid down in Senate Regulation 44, which defines the minimum number of credits to have been gained at various points in your studies, by the end of the academic session. Senate Regulations may be found at: <http://www.st-andrews.ac.uk/students/rules/ugsenateregulations/>.

In order to avoid being placed on probation or termination of your studies following the August reassessment diet, you must ensure that you fulfil Senate Regulation 44 by the end of the reassessment diet. It is important that you attempt to pass as many reassessments as possible. The consequences of being placed on probation are described in the Policy on Academic Intervention (<https://www.st-andrews.ac.uk/media/teaching-and-learning/policies/EarlyAcademicIntervention.pdf>).

You may wish to arrange an appointment with one of our Support Advisers at Student Services (<http://universitystandrewsstudentservices.simplybook.me/index/about>) or at CAPOD (www.st-andrews.ac.uk/students/academic/advice/studyskillsandadvice/academicskills/).

If you have any queries about this, feel free to contact your [Adviser of studies/Personal tutor], or me directly at [Pro Dean (Advising/Medicine) email address].

Yours sincerely,

[Pro Dean (Advising/Medicine)]
