Guide to Support Services
The ASC

The Advice and Support Centre (ASC) is the main Student Services hub and a place where students can drop in, call or email for information or advice. Students can contact the ASC for a range of matters, from questions about finances to academic advice to finding out where lectures and tutorials are. They can also advise you on how to get further support from the wider Student Services team, and make appointments on your behalf.

Counselling

The counselling team supports student wellbeing and mental health using a range of therapeutic approaches and interventions to help students overcome challenges and reach their academic and personal goals. Our counsellors provide a safe, supportive, non-judgemental and confidential space. The support offered is tailored to suit each individual. As such, you and your practitioner will work together to agree the aim(s) of your work, as well as the frequency and number of sessions. The counselling team offers one to one support as well as psychoeducational groups. Where appropriate we will refer to other departments or services.

Saints Sport

Saints Sport is the overarching title and brand that encompasses all of the facilities, services and activities of the University of St Andrews sports department, including the autonomous Athletic Union, our teams, clubs, athletes and staff. We provide a variety of sports and physical activities that you can get involved in at every level.

Being active isn’t just good for our physical health; it’s also proven to have a positive effect on our mental health and wellbeing. Sport and physical activity can help us unwind and feel more relaxed. It can be a way of making friends, social connections and becoming involved in a community. It can give us energy and confidence to think clearly and get the most out of life. It can also help us develop a stronger body and combat health issues.

We know from the work we do in communities across the country the very positive and sometimes life-changing effects that physical activity and sport can have on mental health and wellbeing. By working together, the sporting community can help break down barriers to participation, challenge stigma, and help make a real difference to the lives of people faced with mental health problems.

Digital Support Programmes

Some students find digital support programmes, like SilverCloud or Togetherall, helpful in managing their mental health and wellbeing.

SilverCloud consists of online cognitive behavioural therapy courses about issues such as stress, anxiety, OCD and depression. You work through a series of topics either by directly accessing the material and working through it alone or with a one of our advisors supporting you.

Togetherall is a clinically-moderated online community where people support each other to improve mental health and wellbeing. The platform offers anonymous, peer-to-peer interactions, opportunities for creative expression and a range of accessible programmes supporting health, wellbeing and mental health challenges.

Please note that these resources are not intended or suitable for crisis situations, and are proactive, preventative programmes. If you or a student you know are in a crisis, please contact the emergency numbers at the end of this guide.
