Each student will also attend one afternoon a week where 2-3 pm is for a tutorial and 3-5.30 pm is in the teaching lab. Students will be given the opportunity to select a day of their choice on a first-come-first-serve basis. No student is obliged to attend the Wednesday afternoon for the tutorial and lab, but the School hopes that, as usual, there will be a number of students willing to use the Wednesday afternoon for these activities.

Tutorials and lab work will start in week 2.

Wednesday, 27th September (week 2): 5-min introduction Institute Of Physics (Alison McLure)
Thursday, 5th October (week 3): 5-min introduction Student Services (Lara Meischke)

23-27 October (week 6) is Independent Learning Week, including Monday 23 October Raisin Monday. There will be no lectures and no labs in this week, however, tutorial time slots can be used for open sessions to give students ample opportunities to ask questions.

A revision week and written examinations occur after the end of scheduled teaching and before the winter break.
