**University of St Andrews**  
**Policy on Extenuating Circumstances**

**1. Principles**

- 1.1. The policy aims to establish a clear operational definition of what the University considers to be extenuating circumstances (in the context of requests for academic adjustments).
- 1.2. The policy will also define the types and sources of evidence required to substantiate claims of extenuating circumstances affecting academic performance and engagement.
- 1.3. The policy will outline the University's expectations on the presentation of extenuating circumstances and the roles and responsibilities of staff and students.
- 1.4. In the case of a request for academic adjustments, the policy aims to support students in managing the challenges and demands of academic study while ensuring that fairness and academic requirements are maintained.
- 1.5. Any requests for academic adjustments or evidence of extenuating circumstances may be shared with other relevant staff in the University.
- 1.6. This policy does not apply to any reasonable adjustments made to students on the grounds of a disability.

**2. Definition**

- 2.1. Extenuating Circumstances are defined as unforeseeable or unpreventable circumstances that are likely to have a material impact upon a student's academic performance and/or ability to engage with their studies.

**3. Roles and Responsibilities of Staff and Students**

- 3.1. It is the responsibility of the student to notify their School(s) as soon as reasonably possible in line with published procedures if there are any extenuating circumstances and, if requested, provide evidence (Appendix 1).

- 3.2.** The relevant staff member within each School will exercise discretion to determine what mitigation is appropriate when a student declares an extenuating circumstance.
- 3.3.** When an extenuating circumstance impacts a student for more than 5 working days or 10 non-consecutive days, the relevant staff member within each School will exercise discretion to determine whether further evidence of the extenuating circumstances is required.
- 3.4.** The relevant staff member will share any further evidence of extenuating circumstances with Student Services.
- 3.5.** If the staff member decides that further evidence of extenuating circumstances is required in support of a request for reasonable adjustments:
  - a)** The staff member will ask the student to contact Student Services to discuss the problems affecting their studies (See Appendix 1).
  - b)** Student Services will review relevant information from academic or professional staff and advise the student regarding any appropriate external evidence e.g. a medical letter.
  - c)** Student Services will submit the relevant statement to the School(s).

#### **4. Self-Certification**

- 4.1.** When a student experiences extenuating circumstances resulting in an inability to engage with classes or complete assignments, they must submit a self-certificate.

Self-Certificates are required if a student:

- a)** fails to attend an examination, or
  - b)** fails to engage with any part of the module or programme which is identified as compulsory in each School, or
  - c)** fails to submit a compulsory assessment on time, including an extended deadline or where a student has previously negotiated an extension,
- 4.2.** The completion of a self-certificate does not exempt a student from completing compulsory elements of a module (See Appendix 1). Having submitted a self-certificate, the student remains responsible for contacting the relevant staff member in each School to ascertain:
  - whether any remedial work or assessment is required
  - whether any evidence of extenuating circumstances is required.

## **5. Decisions on Requests for Academic Adjustments**

- 5.1.** The relevant staff member in each School has the discretion to make the final decision as to whether appropriate academic adjustments will be offered. Within guidelines.
- 5.2.** Schools will not be bound to follow the decision of other Schools regarding any academic adjustments.
- 5.3.** The table in Appendix 2 refers to the types of circumstances which are likely or unlikely to be accepted as extenuating circumstances. The table is not exhaustive and should be used as guidance only.

## **6. Evidence**

- 6.1.** If further evidence is required, the relevant staff member must make this request in writing to the student.
- 6.2.** All evidence must be in written English, and it is the student's responsibility to ensure an acceptable translation is supplied if necessary.
- 6.3.** Exceptionally, evidence for extenuating circumstances can be submitted by a third party where unforeseen medical circumstances have been identified which prevent the student from submitting the evidence.
- 6.4.** Where the student is required to obtain medical documentation from a local health care provider, they should request a medical report from the most appropriate medical professional who knows their case. The student may also wish to inform Student Services and submit their medical report to this service, making Advisers aware of any medical issue which may become prolonged and impact on further necessary and permissible academic adjustments. Where a student is unable to engage with the University, medical evidence can be provided by their emergency contact.

Any fee for the provision of evidence must be paid by the student. Students facing financial hardship should speak to the Money Advice Team for further information.

- 6.5.** The University reserves the right to make enquiries to establish the authenticity of the documentation. If documentation is found to have been falsified, students will be referred to non-academic misconduct.

- 6.6. Where a student has demonstrated sufficient reason for not providing evidence from a professional service or third party, the student's written account can be deemed appropriate as evidence.

## **7. Academic Adjustments**

- 7.1. If the request for academic adjustments is approved, staff should refer to the [Guidance for Staff on Assessments](#) for information on academic adjustments.
- 7.2. In the case of incomplete module assessments and results due to student absences, the Module Board will consider cases subject to Section 5 of the [Policy on Student Absence](#).

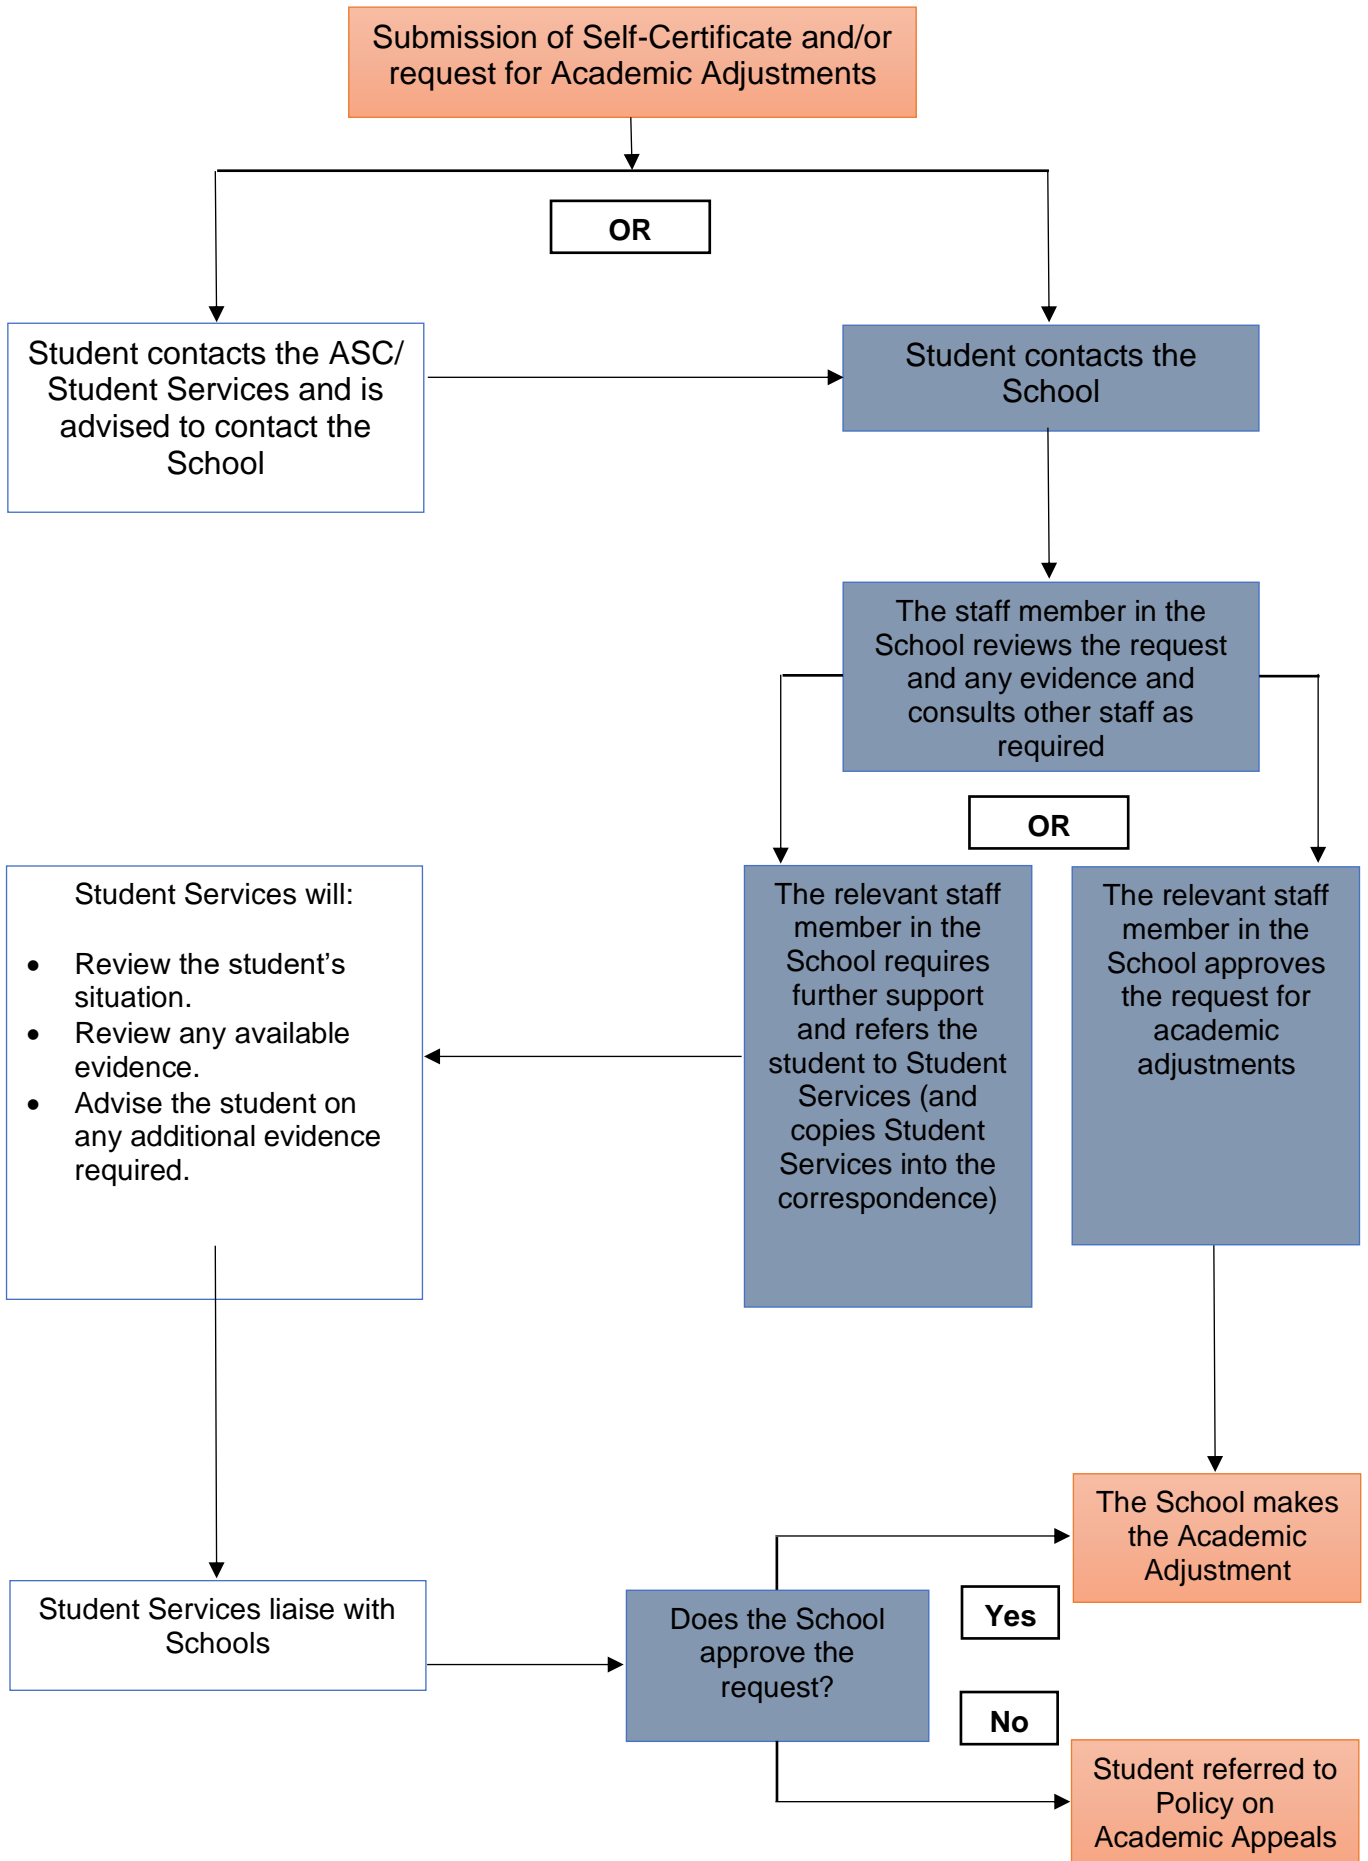

## **8. Alternative Adjustments and Appeals**

- 8.1. In a case where a student rejects the option to accept the academic adjustments offered, they should be aware that the School may not be able to accommodate the extenuating circumstances at a later date.
- 8.2. Appeals of academic decisions including those made under the permissible grounds of extenuating circumstances are governed by the University policy on [Student Academic Appeals](#).
